No alterations have been made in the List of Vessels belonging to the United States Navy as published in 1863 Edition, owing to circumstances having prevented the arrival, from New York, of the corrected List in time for Press.

LIST OF VESSELS BELONGING TO

THE UNITED STATES NAVY,

WITH THE SIGNAL LETTERS BY WHICH THEY ARE DISTINGUISHED IN THE COMMERCIAL CODE OF SIGNALS FOR THE USE OF ALL NATIONS.

The American Ensign to be shown at the Peak, over the Code Pendant, when the Signal Letters are hoisted.

TO

OWNERS AND MASTERS OF AMERICAN VESSELS.

OWNERS and MASTERS desirous of having the Names of their Vessels inserted in the "Mercantile Navy List," in order that a Signal may be appropriated, by means of which their identity can be made known to Ships of war, passing Vessels, or to Coast Guard and Signal Stations, so that they may be reported in the SHIPPING LISTS, are requested to forward, through the Consul of their Nation, or an established London Agency, the following particulars:

The Name of the Vessel in full.
Tonnage.
Horses' power, if a Steam Vessel.
Port of Registry.
National Flag under which the Vessel Sails.
Rig.

All Communications to be addressed to

J. J. MAYO, ESQ.,

Registrar-General of Seamen and Shipping,

Adelaide Place,

London Bridge,

LONDON, E. C.

No alterations have been made in the List of American Vessels as published in the 1868 Edition, owing to circumstances having prevented the arrival, from New York, of the corrected List in time for Press.

LIST OF

AMERICAN REGISTERED VESSELS,

WITH THE SIGNAL LETTERS BY WHICH THEY ARE DISTINGUISHED IN THE COMMERCIAL CODE OF SIGNALS FOR THE USE OF ALL NATIONS.

Note.—If the name of the Vessel is not found in Alphabetical order, refer to the end of the letter.

ABBREVIATIONS.—Bg. Brig.—Bk. Bark.—Sc. Schooner.—Sp. Ship.—St. Steamer.

The American Ensign to be shown at the Peak, over the Code Pendant, when the Signal Letters are hoisted.

BELONGING TO VARIOUS NATIONS

TO WHICH SPECIAL SIGNALS HAVE BEEN APPROPRIATED.

TO

OWNERS AND CAPTAINS OF FOREIGN VESSELS.

OWNERS and CAPTAINS of Foreign Ships desirous of having the Names of their Vessels inserted in the "Mercantile Navy List," can obtain a distinguishing Signal, by means of which their identity may be made known to Ships of war, or passing Vessels, or to Coast Guard or Signal Stations, so that they may be reported in the SHIPPING LISTS. To secure these advantages, it is necessary that the following particulars should be forwarded through some Consul, or some established London Agency, to John J. Mayo, Esq., Registrar-General of Shipping and Seamen, Adelaide Place, London Bridge, E.C.

The Name of the Vessel in full.
Rig.
Port of Registry.
Tonnage.
Horse Power (if a Steam Vessel.)
National Flag under which the Vessel sails.

Note.—This Return, prepared by the Registrar-General of Seamen, cannot be given for earlier years. It includes Channel Islands Vessels, but not those of the British Plantations.—The Home Trade signifies on the Coasts of the United Kingdom, or to Ports between the limits of the River Elbe and Brest.—The Foreign Trade signifies to Ports beyond such limits.—No Foreign-going Vessel is included which has not been so reported within four years, and no Home Trade Vessel which has not been reported within one year. It is possible that some Vessels may be included which have ceased to exist, or are no longer employed as British Vessels, but every endeavour is made to ascertain and strike off such Vessels.—With respect to the Crews, a very small deduction ought to be made for the case of men who join a fresh ship immediately on their discharge from the former one, which happens to remain in Port.

OFFICIAL NOTICES.

Minute of the Lords of the Committee of Privy Council for Trade.

At the Council Chamber, Whitehall, the 2nd July, 1855, by the Right Honourable the Lords of the Committee of Council appointed for the consideration of all matters relating to Trade and Foreign Plantations, present:

THE LORD STANLEY OF ALDERLEY,
THE RIGHT HONOURABLE E. P. BOUVERIE,

My Lords are pleased to appoint the following Officers and Gentlemen as a Committee to inquire into and report upon the Subject of a Code of Signals to be used at Sea:—

Admiral F. W. Beechey, F.R.S., *Chairman.*
Captain C. R. D. Bethune, R.N.
Captain Robert Fitzroy, R.N.
Captain G. A. Halsted, R.N.
Captain H. Bonham Bax, H.C.S.
Captain George Denny, H.C.S.
Joseph Mondel, Esquire.
W. Chapman Harnett, Esquire.
The Registrar-General of Seamen.

STANLEY OF ALDERLEY.

REPORT OF THE COMMITTEE ON A CODE OF SIGNALS TO BE USED AT SEA.

TO THE LORDS OF THE COMMITTEE OF PRIVY COUNCIL FOR TRADE.

COMMITTEE ROOM, BOARD OF TRADE,
WHITEHALL, 24*th Sept.* 1856.

MY LORDS,

In pursuance of your Lordships' Minute of the 2nd July, 1855,* appointing us a Committee "to inquire into and report upon the subject of a Code of Signals to be used at Sea," we assembled on the 3rd of that month, and have since from time to time continued our meetings; and, having fully considered the subject, we have the honour to submit the following Report of our proceedings.

Before entering upon the general question of the formation of a New Code of Signals for the Mercantile Navy, we thought it right to examine such published Codes as have from time to time been in use in the Royal Navy and the British as well as Foreign Merchant Services. They are comprised in the following list:—

1. Admiralty Code 1808
2. Lynn's 1818
3. Squire's 1820
4. Admiralty 185
5. Phillipps' 185
6. Röhde's 185
7. Raper's 185
8. Admiralty (present Code).
9. Walker's 186
10. Watson's . . . . . —
11. Rogers' (American) . . . 185
12. Reynold's (French) . . . 185
13. Marryatt's . . . . . (1854 1856

In addition to the above, several other *Codes*, a of a local or limited character, were noticed various suggestions for signalling at sea that ha mitted to us, either directly or through the for and other Departments of Government.

After carefully examining the modes of signal in these various codes and plans, we were of although all were in some *respects* unsatisfac selves, as not fulfilling all the requirements day, yet there existed in them the elements improved Code for the use of Ships.

We had particularly to consider that, indepe good system of Signals for effecting a *Telegraph tion* between ships, one very important objec system for the purpose was to provide, at the facilities *for making Ships' Names or Numbers.*

The great advantage to be derived from an exchanging Ships' Names by Signals is obvious.

In a Report which was submitted to your Lords Registrar-General of Seamen, in March, 185 which is annexed to this Report*), your Lordsh is drawn to the provisions of the Merchant Sh 1854, by which every British registered ship is re have permanently marked on her main beam the now generally described as her "Official Nu which she is registered, which is entered upon her of Registry, and by which she may be at once without reference to her name.

These numbers will, it is calculated, amount to 40,000 in the first year after registry has becom and as the cancelled numbers will *not* be reissue lapse of perhaps five years, it has been cal upwards of 50,000 numbers will be outstanding and that, consequently, that number *must* be pro the Code, in addition to the number required for I purposes.

We next considered what principles should be l the basis for the formation of an efficient Code, and as follows:—

1. The Code ought to be comprehensive and yet not expensive.

* See Appendix A.

* See Appendix B.

Digitized by Google

It ought to provide for not less than 20,000 distinct Signals, and should, besides, be capable of designating not less than 50,000 ships, with power of extension if required.

It should express the nature of the Signal made by the combination of the signs employed, and the more important Signals should be expressed by the more simple combinations.

A Signal should not consist of more than Four Flags or Symbols at one hoist.

A Signal should be made complete in one hoist in one place.

Signals should have the same meaning wherever shown.

The Signal Book should be so arranged, either numerically or alphabetically, in classes, as to admit of the subject being readily referred to, and provision should be made for future additions.

The Code should be so framed as to be capable of adaptation for *international communication*.

regards the existing system of making Signals at sea, bmit the following observations:

Code of Signals most generally used at this time on both British and Foreign ships is that known as ryatt's." There is also a French Code by Captain ld, of the French Imperial Navy, which has been ated into English, and an American Code by Mr. Rogers, ltimore, in use in their respective countries, and, as re informed, recognised by their respective Govern-

ese Codes are all based on the Numeral System; that say, the Flags are numbered from 1 to 9, with a Cipher (0), and the Signals are composed of one or more Flags, senting by numbers the words or sentences required to licated.

haps the best argument in favour of this (the Numeral) n is the fact, that all the Codes in use (with the excep- f the Vocabulary used in the Royal Navy) are based on d a Code on any other principle would be so far at ice with existing habits; but, whatever importance is ied to that circumstance, there are other considerations ual weight which must not be lost sight of, and which influenced us in forming an opinion on the merits of the n.

is perhaps advisable briefly to submit to your Lordships objections which it appears to us exist to that method of lling.

the number of Signals required were very limited, we ve that the Numeral System above referred to would be ient; but since it is intended to give the Official Num- of Ships, and as a range of Numerals of not less than 00 will be required, we are of opinion that that system is inadequate.

is obvious that to represent such Numbers as 22, 131, 5656, &c., with only a single set of Flags, means must evised to substitute some Sign—either a Flag or a Pen- —to represent the Numeral Flag already employed, and hich no duplicate is carried. This can only be accom- ied with one set of Flags by the use of distinct Signs d "Substitutes or Repeaters," and which may be made epeat the Flags for which they are designed to act as stitutes; thus, by the following, which is the simplest hod,

A	repeats	the 1st Flag	in the Hoist.
B	,,	2nd	,,
C	,,	3rd	,,

We think that there is great objection to the use of these eating Flags. Great caution is necessary in placing them, there is always risk of making mistakes.

t also involves the necessity of making one Substitute *at another Substitute*, which is objectionable, but unavoid-

f further proof were required that the use of Repeating gs is to be avoided, we would refer to the Codes of Marryatt, Rogers, and Reynold, who have hitherto evaded their use by omitting in their respective Codes all, or nearly all, numbers in which the same numeral appears more than once, such as 44, 313, 6161, 8888, &c.; and by dispensing with the aid of these auxiliaries, they greatly lessen the capacity of their Codes, as is shown thus:

10 Numerals with 3 Repeaters would give	9999	Signals.
10 Numerals without the aid of Repeaters make only	5860	,,
Showing a loss of	4139	Numbers

in every 10,000 Signals.

Any given number may, however, be made with 10 Flags and 3 Repeaters, up to 9999; but a Numeral Code consisting of 13 Flags (if no more than 4 Flags are to be shown in one hoist, and if the Signal is to be complete in that hoist, and not divided by exhibiting a part of it in another place) must of necessity be limited to 9999 Signals.

It is true that in the Numeral Code, by the use of distinguishing or divisional Flags or Pendants, as many *different series* of numbers may be obtained as there are Pendants or Flags employed for the purpose, and that by changing the position of these distinguishing Flags the number of series may be multiplied.

The plan of obtaining high Numerals by both Marryatt's and Reynold's Codes proceeds on the above principle of distinguishing Pendants or Flags; that is to say, particular Flags designate certain classes of Signals, such as the "Telegraph" Flag and the "Rendezvous" Flag, which signify, respectively, either that you are *conversing* or are appointing a place of meeting; and Pendants are used for classifying ships according to the *Colour* of the Pendant employed. For the purpose also of increasing the Numeral power of the Signal Book (that is, of effecting a *fresh series of Signals*), the same Pendant may be placed at the top or bottom or in the middle of the hoist, and its value, *i. e.* its Numeral power, may be varied in each separate position. In all these Codes *Five Flags in a Hoist* are used to make high numbers; and in the latest edition of Marryatt's Code, Four Repeating Flags are employed for making consecutive numbers as high as 99,999. Mr. Rogers, in the present edition of his Code, does not employ Repeaters, but he has a scheme for so doing, in the same manner as by Marryatt's Code.

We found other means adopted for enlarging a Code of Signals, namely, by the use of distinguishing Pendants shown *from another Masthead*, or by dividing the Signal, and showing *part on one Mast, and part elsewhere*.

We have already referred to our decision, that in any efficient Code no more than Four Flags ought to be shown in one hoist, and that a Signal ought to be made in one hoist at one place.

Upon these grounds, therefore, the system of Numerals appeared to us to be defective for a comprehensive Code, as not being capable of designating in a consecutive *Numerical* Series 70,000 distinct Signals without at any time showing more than Four Flags for each Signal made; and it is clear, therefore, that it would have been inconsistent with the principles laid down to have proceeded with the framing of a Code upon the basis of a system of Numeral Signs.

Having thus set aside the Numeral System, we had to consider what other method would best meet the requirements of an efficient Code.

There was only one other method known to us by which the objects we had in view could be attained.

It was that of taking a number of Signs (or Flags) sufficient for the purpose, and by their transposition effecting a certain number of permutations, each different combination of two or more of the Signs so taken forming a Signal distinct in itself and having a particular signification.

We subjoin a Table showing the number of distinct Signals which ten or more Flags are capable, by permutation, of forming in hoists of from two to four Signs at a time in one place.

PERMUTATIONS

OF WHICH THE FOLLOWING NUMBERS OF SIGNS ARE CAPABLE.

Single Signs not reckoned.	With 10.	With 11.	With 12.	With 13.	With 14.	With 15.	With 16.	With 17.	With 18.	With 19.	With 20.
In Hoist of 2 Signs	90	110	132	156	182	210	240	272	306	342	380
Ditto 3	720	990	1,320	1,716	2,184	2,730	3,360	4,080	4,896	5,814	6,840
Ditto 4	5,040	7,920	11,880	17,160	24,024	32,760	43,680	57,120	73,440	93,024	116,280
Ditto 5	30,240	55,440	95,040	154,440	240,240	360,360	480,480	742,560	1,028,160	1,395,360	1,860,480
Total with 2, 3, 4, and 5	36,190	64,460	108,372								
Total with 2, 3, and 4				19,032	26,390	35,700	47,280	61,472	78,642	99,180	123,500

From the above Table it will be seen that 18 Flags will be requisite to give the number of Signals which we have stated to be necessary, *i. e.* 70,000 distinct Signals, with power of extension to 78,642 Signals, each Signal consisting of a hoist of not more than *Four Flags*.

The actual number (18) is only two more than vessels using Marryatt's Code now carry; and having decided upon this number, we proceeded to the *naming* of the Flags or Signs, in devising which it appeared to us—

1. That the characters should be familiar ones.
2. That they should recur in a well-known order, for facility of reference.

The letters of the alphabet seemed best adapted for the purpose, and we determined that it would be most convenient to assign to each of the 18 Flags a letter of the alphabet, leaving out the vowels.

The omission of the vowels was forced upon us from the circumstance, that by introducing them every objectionable word composed of four letters or less, not only in our own but in foreign languages, would appear in the Code in the course of the permutation of the letters of the alphabet.

Too much importance should not, however, be set upon the objection which naturally occurs, that the alphabet is thus incomplete, and that the power of spelling is apparently lost; for it should be understood that the letters are not used *as letters*, but *as signs*, characterising the different Flags by the most familiar method, and in an order well known.

The last consideration which occupied our attention was the colouring of the Flags to be used.

In determining this question, the following points were discussed:—

1. Whether Marryatt's Flags were the best adapted in shape and colour for signalling?
2. Whether Marryatt's Flags being generally in use on board Merchant Ships of this and Foreign Countries, and also, as we have found, at many Foreign Signal Stations, it would not be convenient to adopt them as far as possible?

We were not prepared to decide the first question in the affirmative, but considering the heavy expense of procuring a new set of Flags, and in deference to what appeared to be a general wish,—that Flags which are, and have been for many years, so generally in use in Merchant Ships, and with which mariners are familiar, should not, without very strong reasons, be dispensed with,—we determined to recommend the adoption of the Flags now employed in Marryatt's Code (with slight variations), as far as they were applicable.

In conformity with the foregoing Resolutions, a Signal Book has been prepared, and accompanies this Report.

In submitting this Volume, we have only to remark, as regards the general contents, that it does not materially differ from other Signal Books.

The general principles of the Code, and directions for its practical working, are explained in the commencement of the book; but we desire to point out to your Lordships the main advantages which it appears to us to possess over any other Code that we have had before us:

First, its comprehensiveness and distinctness, the *combination of the Signs expressing the nature* of the Signal made—two Flags or Symbols in a hoist always meaning either *Danger* or *Urgency*—and the Signals throughout being arranged in a consecutive series, so that any individual Signal, whether a word or a sentence, may readily be found; secondly, that the Flags and Pendants are so arranged as by their position to characterise the Signals made; thus,

In Signals made with Two Signs—

The Burgee *uppermost* represents	"*Attention* Signals."
A Pendant *uppermost* ,,	"*Compass* Signals."
And a square Flag *uppermost* represents	"*Danger* Signals."

In Signals composed of Four Signs—

The Burgee *uppermost* represents	"*Geographical*."
A Pendant *uppermost* ,,	"*Vocabulary*."
And a square Flag *uppermost* represents	"*Ships' Names*."

and thirdly, that the arrangement of the Code is such as to *hold out to Foreigners the same advantages* that it affords to our own marine.

Part I. is that which, by translation, may be made to Universal Language of Signals. It is intended that the corresponding combination of any two or more of the 18 Signal Flags which any Nation adopting the Commercial Code may please to employ shall always have the same meaning, in whatever language the Signal may be expressed; and it will only remain for those Nations who choose to adopt the Code to make a Dictionary or Alphabetical Index to the words and sentences so arranged, which, corresponding with Part II. of the English Code, will be the Foreigners' National Vocabulary, as Part II. of our own Code is the English Vocabulary.

A further advantage is, that the International Signals, ex-

sisting of all such words and sentences as can ordinarily be required for any purpose, are confined within the limit of the 3-Flag Signals, excepting only the Geographical Table, which, from the number of places, &c., required to be indicated, it was not found possible to include within that limit.

In short, if an Englishman or a Foreigner desires, with such a code before him, to *make a Signal*, he is enabled to express his wishes by referring to the *Alphabetical Part II.* of his Code, and he will there find the combination of Letters, or Flags, which must be used. On the other hand, if an Englishman or a Foreigner wishes to decipher or make out *any Signal* taken from this Code, *which is to be mutually intelligible*, he is enabled to do so by referring to *Part I.* of his Signal Book, in which the meaning of the Signal displayed is at once obtained—that meaning being the same in all languages.

Part II. of the Code is the National Vocabulary and Index to the Signals arranged in Part I.; but it is far more comprehensive, and contains much that is not to be found in Part I.

This Part is alphabetically arranged throughout; and opposite to each word or sentence are placed the Letters or Signs by which it is to be expressed,—either to the right or to the left hand.

If the word or sentence required to be indicated has any Letters set against it *to the right*, it will be found in the International Part I., and can be used for communicating *in a Foreign Language*, but not otherwise.

We entertain the hope, that should the Code be appreciated and enter into general use, at some future day all Nations may agree to use one set of Flags for commercial purposes, and thus complete a mode of universal communication.

In the meantime, we recommend that Foreign Maritime States be invited to forward Plates of the Signal Flags which they have in use on board their own Merchant Ships, in order that a corresponding arrangement of Symbols may be mutually agreed upon, should they think proper to adopt the Code; but it should be borne in mind, that to reap the full benefit of the Code the Flags and Pendants to be employed ought to be in shape and order similar to those proposed by us.

In conclusion, we desire to explain the reasons which have decided us upon omitting the List of Ships from the Signal Book now presented.

In the first place, the number of British registered ships is so great, that we are of opinion that to have included the List would have increased the size of the volume to such an extent as to have rendered it too cumbrous as a book designed for ready reference, and, at the same time, it would have greatly enhanced its price; and, secondly, it would be very inconvenient and expensive to introduce a Code which must constantly be revised, it being essential that a List of Ships, to be of real use, should be periodically corrected.

About 40,000 Signals would have to be at once appropriated, and a list of 40,000 vessels to be alphabetically arranged as well; and it is needless to say that the above would form a book of considerable size.

Under these circumstances, we saw grave objections to the introduction into the present volume of the List of British Ships, which we consider will be better published in a separate form, as an Authorised Official List to which the Signals may be appropriated, as has been suggested to your Lordships in a letter from the Registrar-General of Seamen, a copy of which is appended to this Report.*

This List can be annually corrected, and should be sold at as cheap a rate as possible; and if it is found that the cost of its publication will not admit of its sale (without loss) at a low price we would suggest, that as this Official List will be a very valuable source of information, in whatever form it may be decided to publish it, both to the officers of the Government at home and abroad, as well as to the Shipping and Mercantile Community generally, your Lordships may consider whether a sum may not properly be granted out of the Mercantile Marine Fund towards the expense of a publication which, if widely circulated, would tend so greatly to the benefit of Shipping.

APPENDIX B.

General Register and Record Office of Seamen, Custom House, London, *March* 30, 1855.

1. The Merchant Shipping Act of 1854 provides that, "from and after the 1st of May, 1855," to every British registered ship shall be appropriated an official number, to be entered upon her certificate of registry, and permanently marked upon her main beam.

2. And the Lords of the Committee of Privy Council for Trade have been pleased to direct that such official number shall be assigned in continuous arithmetical succession, and attach invariably to the vessel's name, so as to insure, that through all changes of ownership or Port of Registry no two ships shall be numbered alike.

3. This regulation will greatly facilitate official operations, by the ready mode of identifying each particular vessel, and avoid the inconvenience now experienced, owing to many vessels belonging to the same port, and of the same tonnage, and bearing the same name, necessarily changing their identity when registered anew in other ports.

4. In order to extend the utility of this regulation to vessels *already registered*, their Lordships have been pleased to direct that a special official number shall be also assigned to all such vessels, to be marked upon the existing certificate of registry, when presented at any custom-house; and provision has been made for carrying this regulation into effect.

5. The identity of every particular vessel being thus established, the inconvenience that has heretofore existed will no longer be felt. But, great as is the advantage of this identity, the extent of the benefit of which the regulation is capable

will be but imperfectly realised, until means are devised and established for communicating these distinctive numbers between all ships passing at sea, and signalling to stations on shore.

6. The present number of British registered vessels amounts to about 35,000, and 1,500 new vessels are added annually. It will, therefore, be necessary to appropriate, in a signal book, at least 50,000 symbols, for the purpose of signifying the special numbers of these vessels.

7. There is no Code of Signals in existence which under its present arrangements, and with its present number of flags, is capable of accomplishing this (and other objects enumerated in paragraphs 11 and 12), without such complexity as would make the interpretation very difficult.

8. As it is of the highest importance that the community should not be deprived of the great benefit that must arise from the existence of an established means of general communication, it is essential to consider whether any of the Codes at present in use can be made available, by better arrangement, and a moderate addition to their flags, or in other respects applied to the purpose.

If such should be found practicable, it is desirable that one of them (perhaps that which has the greatest circulation) should be selected and brought into general operation.

9. But, whatever means may be adopted in these respects, it is certain, that when once an universal Code has been determined upon, the under-mentioned advantages will result.

10. First, it will afford a ready means of making known to signal stations, or when ships pass each other at sea, the identity of particular vessels, so that their progress or whereabouts may be correctly reported.

11. Secondly, of communicating at sea the wants and wishes of masters of vessels.

12. Thirdly, of extending the means of intercourse to the vessels of all countries, by the establishment of an International Code of Signals.

13. Such palpable advantages, capable of being realised by this beneficial regulation of special numbering, which establishes the principal element heretofore wanting, will, no doubt, speedily become apparent, and give rise to propositions, either for amending the present signal books, or publishing new ones; and as each of the existing Codes would probably be extended by its author, and the evil of the present complicated signals consequently perpetuated, the difficulty of remedy will be increased.

14. I hasten, therefore, to bring the matter under their Lordships' notice, in order to obviate the obstruction to establishing *one universal Code*, which the anticipated multiplicity of schemes will occasion.

15. And I respectfully submit that the *immediate consideration* of the matter in its several bearings becomes most necessary, not only for the reasons stated, but in order that the views of shipowners and others interested, and the sanction of their Lordships, may be obtained in favour of an established Code of Signals for the mercantile marine, which shall embrace all the requisites of such a scheme.

16. There are several Codes of Signals in operation at present, and it would (as before observed) be desirable to adopt the Flags, if not the text book, most generally used, provided they could be made sufficient for the purpose, so as to save expense.

17. It is obvious, however, that such a Code as would be practically useful, easily interpreted, and calculated for universal application, must deviate in many respects from any existing one, in order to avoid the complexities now so generally complained of.

18. As this proposition involves important objects calculated to facilitate the ends of commerce and navigation, and to establish a closer communion between maritime nations, and will require very careful consideration, in order that it may be well matured before it receives the public sanction, and the influential support necessary for its success, I therefore further submit that,—

19. Should their Lordships be pleased to approve of the proposal, whether, in the first place, it might not be desirable to ascertain the views of the Local Marine Boards, Lloyd's, and other mercantile bodies interested in so universal a method of communicating correctly the progress and whereabouts of trading vessels, and other objects attainable by a well-designed Code of Signals.

20. If after such reference, it should be determined to proceed in the matter, it might be desirable to form a committee to consider the subject, consisting of persons named by parties whose interests are concerned, or of members called together by the Board of Trade.

21. That the shipping offices, or customs, may be made available for correcting ships' Signal Books half yearly, and at the termination of each foreign voyage; and also for giving facilities to those who adopt the sanctioned Code.

22. That a competent person should be appointed to superintend the issue and correction of Signal Books, and the whole expense covered by small charges for the books, and for the periodical corrections.

23. For the original expense of five or six pounds for Flags,* and a yearly charge of one shilling for corrections, ship masters would be able to make known the progress of voyages to the public generally, but more particularly to the persons interested in the fate of every individual vessel, her crew and cargo.

I have, &c.

(Signed) J. H. Brown,

Registrar-General of Seamen.

APPENDIX C.

General Register and Record Office of Seamen, Custom House, London, *March* 27, 1856.

Sir,—In compliance with their Lordships' directions that I should report fully upon the desirableness of extending the scope and utility of the "Mercantile Navy List," and printing therein lists of the registered vessels belonging to the British empire, with the official number by which each vessel is distinguished, together with any symbols that shall be devised by the Signal Committee now sitting for interpreting those numbers, so that the identity of a vessel may be intimated, without mistake, by a simple and ready process; also, as to the utility of the aforesaid system for official purposes, I beg leave to make the following statement:—

Having brought this matter under their Lordships' consideration in my letter of the 30th of March, 1855 (a copy of which is annexed †), their Lordships were pleased to refer my proposal to certain influential parties connected with the shipping interest, who generally concurred in the utility of establishing a means of signifying by Signals the official numbers assigned to every registered ship. This subject has accordingly received great attention from the committee appointed to consider the subject of Signals, who, it is understood, will shortly make their Report.

Meanwhile, the appropriation of the official numbers has been carried into effect, so far as can be accomplished until the return of those vessels from abroad which may not have obtained numbers in the colonial ports of the British empire.

The new mode of identifying ships is intended to supersede the one now in use, which, owing to many vessels bearing the same name, frequently leads to error, and always makes it necessary to specify certain particulars (in addition to the name), such as the port of registry, the number, and year of registry in that port, &c. &c.; the enumeration of which particulars (often changing with every change of ownership) is attended with trouble, delay, and uncertainty, but *must* be made known before a vessel can be *correctly identified*.

The appropriation of an exclusive number to every registered ship is not, however, sufficient *in itself*, and will not realise the utility of which the design is capable, unless a book of reference is prepared, issued, and from time to time corrected, so that (for official purposes) officers of Her

Majesty's Navy, of the Board of Trade, the Customs, Coast Guard, Trinity House, Consuls in foreign ports, &c., &c., shall have an easy means of reference, and thus avoid or correct errors in reports respecting vessels, or their crews; and also that these officers may have the opportunity of comparing the official numbers indorsed on ships' certificates with those in the official List.

This List will show the particular numbers cancelled from time to time, and by this means obviate any inconvenience that may possibly arise from vessels assuming false or erroneous names or characters by means of obsolete registers.

The evident advantage of the present mode of identifying each ship by an official number, over the old system, has been universally admitted; and the requirement is readily complied with by ship owners and masters, as soon as opportunities for obtaining the official number occur; but the utility of which it is further capable might not be apparent (without further explanation) to those who have not given the matter much consideration. And as their Lordships may wish to ascertain the opinions of the shipping interest by reference to Lloyd's Committee, the Local Marine Boards, and the several Societies, it becomes desirable to point out the peculiar facilities which the regulation affords, not only for the official purposes above mentioned, but for the general and private interests of those concerned in trade.

The importance of correct reports and accounts of matters affecting shipping is apparent from the many journals and circulars established for this especial purpose, and in most newspapers shipping intelligence forms a prominent feature.

This is not to be wondered at, considering the vast number of interests concerned in the fate of life and property afloat; anything, therefore, that tends to facilitate or to insure the correctness of these reports will be eagerly appreciated.

Now, as every British registered ship is or will soon be distinguished by an especial number, unalterable so long as she is in existence, and independent of the other particulars enumerated on her certificate of registry, or other papers, such as port of registry, &c., &c.,—if an arrangement can be effected by which this number shall be represented by certain flags or symbols, the exhibition of it (the number), whether by writing or by signal, will always serve to identify the vessel, provided *reference can be had to a correct book or list*, in which such number and signal is entered opposite to the ship's name, accompanied by the particulars of the country, port, tonnage, &c.

By this means, wherever a ship might be met with, whether on the ocean or elsewhere, she would be individually known; and the consequence would be that more frequent and correct reports of the whereabouts of vessels and of their condition would be obtained,—for not only will the identity be correctly established, but the means of telegraphing *increased*, and the expense of transmitting intelligence *reduced*, by the abbreviation of the message.

Useful and necessary, therefore, as this regulation will become for *official* purposes, its value is most apparent in connection with commercial intercourse, and the superior facilities which it will afford for promoting the interests of trade and navigation.

Under these circumstances, it may be anticipated that the publication of a manual containing correct lists of vessels, with means of identifying them, and other particulars necessary for the information of the shipping interest, at such a price as shall render it generally available, will not only be acceptable to the large and influential class of persons concerned, but, when its utility is tested, it will probably in a short time obtain such a circulation as will repay the sum necessary to launch a book of so peculiar and elaborate a character; and that it will tend, in connection with the proposed Signal Book, to realise the hope of effecting an international communication between maritime states.

But even if this anticipation of obtaining a large circulation is not realised, I submit that it is desirable and expedient for the Board of Trade, in furtherance of the laws which are producing such beneficial results in our mercantile marine, to establish and maintain an official organ which shall authorise and make known the regulations that become necessary to be promulgated from time to time, in order to explain those laws; and also to obviate the plea of ignorance which the want of such an organ often suggests; by offering to the public a manual, by reference to which all persons may secure the advantages I have enumerated, and ascertain their position with respect to existing regulations, so as to avoid incurring penalties. I have, &c.

METEOROLOGIC DEPARTMENT, BOARD OF TRADE.

Office of Committee of Privy Council for Trade,
Marine Department, September, 1854.

Sir,—I am directed by the Lords of the Committee of Privy Council for Trade to invite the attention of the ——— to the accompanying Report of the Conference which, at the suggestion of Lieutenant Maury, of the United States Navy, was held at Brussels, on the subject of establishing a uniform System of Meteorologic Observations at Sea, and concurring in a general plan of observations on the winds and currents of the Ocean, with a view to the acquirement of a more correct knowledge of the laws which govern the motion of those elements, and to the improvement of Navigation.

In consequence of the suggestions contained in that Report, Her Majesty's Government has submitted, and Parliament has sanctioned, a Vote for Instruments, and for the Tabulation of Logs, and other Meteorologic Records; and Captain FitzRoy, of the Royal Navy, has been appointed to assist this Board in the discussion of the observations.

The object of the arrangements will be to attain, if possible, to such an improved knowledge of the currents of the Ocean, and of the direction of the prevailing winds, as may materially diminish the risk and labour of navigation, and shorten the duration of voyages.

As an acknowledgment for the pains and attention of such Masters of Foreign-going Ships as are willing to co-operate with Her Majesty's Government in this undertaking, and as are competent to fulfil the conditions required of them, it is proposed to place a distinguishing mark against their names in the Mercantile Navy List, and to give copies of the Charts and Books which will be printed from time to time from their own and their brother officers' observations during the time they continue to contribute. These Books and Charts will contain information as to the prevailing winds and currents in the part of the Ocean of which they treat, and of the most desirable tracks to follow, in order to make the surest and quickest passages, and how to avoid or mitigate the violence of hurricanes, &c.

And further, to such Masters as will undertake to fill up the Columns of the Abstract Logs or registers, and to make observations at the hours denoted by the large figures for their successive voyages, the United States Government have directed to be furnished (gratis) some Charts and Sailing Directions of Lieut. Maury, of the United States Navy, for the part of the Ocean they are navigating.

In order to facilitate the desired co-operation, standard instruments have been prepared, and may be obtained at a diminished cost for the use of the Merchant Navy.

My Lords are in hopes that the object of this undertaking and the inducements held out to those who are willing to co-operate in it, will be considered by the more wealthy Shipping Companies, and private Shipowners, of sufficient importance to induce them to encourage the officers in command of their ships to undertake these observations, and to furnish some, at least, of their Masters with the requisite Instruments; but in other cases, in order to render the experiment as extensive as possible, Instruments will be furnished by the Marine Department of this Board, to Masters desiring to have them, and giving sufficient proof of their attainments. The extent to which their Lordships may be able to do this will however be limited to the means

placed by Parliament at their Lordships' disposal, and my Lords are not prepared to pledge themselves to continue it in future years.

I am to add that it is very desirable that any Masters of Foreign-going Ships who may be willing to avail themselves of the privileges mentioned above, should communicate with as little delay as possible with this Department, either directly, or through the Agent appointed for this purpose at the Outports.

I am, Sir, your obedient Servant,

JAMES BOOTH.

DUBLIN—Captain Maclean, R.N., Local Marine Board.

METEOROLOGIC AGENCY,

SIR,—In accordance with Instructions from the Board of Trade, I am to acquaint you that a set of the undermentioned Instruments, or any less number of them, may be lent, or sold, to you, on the following conditions:—

If lent, they are to be carefully used, and restored in as good condition as may be practicable, to an Agent of the Board of Trade, at the return of your Ship to a Port in Great Britain: unless, after communication with such Agent, and after his comparisons, you should be duly authorised to retain them.

Enclosed, are letters, which you will have the goodness to sign, and return to me, upon receiving Instruments, Registers, Charts, or Books, from the Board of Trade.

One Set of Instruments usually consists of

1 Marine Barometer. | 1 Thermometer Stand, or Screen.
6 Thermometers. | 4 Hydrometers (Glass).
and 1 Azimuth Compass.

Total Cost, £14 0 0.

CONDITIONS.

To entitle the Navigator to such Sheets of Charts, as relate to his intended voyage; and to copies of such Board of Trade publications, as may be available, and suited to his objects—he should be able to show that he is prepared to make the observations required of him, with necessary Instruments, which should be (at least) a good Compass, Sextant, and Chronometer, a Barometer, and three Thermometers.

The Navigator who receives a copy of such Charts and publications is expected to give his assistance by keeping an Abstract of his Log, not only for the Voyage then intended, but for subsequent Voyages. And if he fails to comply with the conditions, namely, to keep abstracts of his voyages, in the prescribed form, and, on his return to his own Country, to transmit them to a person appointed to receive them (see List of Agents), he will forfeit his claim to future publications, as well as to the loan of Instruments.

SUMMARY STATEMENT OF THE MEASURES TAKEN BY H. M.'s GOVERNMENT FOR PROMOTING OBSERVATION AND SYSTEMATIC RECORD OF METEOROLOGIC FACTS AT SEA.

THE importance of accumulating observations of wind, weather, climate, currents, temperature and density of water, with other kindred matters, usually included under the term Meteorology—having been urged by the Royal Society, and fully admitted by Government—a meteorologic department was established, under the Board of Trade, in 1855.

To secure methodical reduction and tabulation of such observations, in order that the philosopher might use them with confidence and facility, and the navigator acquire practical information without delay, much consideration was given to the system adopted, which is, briefly, the following:

The surface of the globe is supposed to be divided into Squares, which are numbered and lettered, on maps, for reference — numbers showing the principal squares, and letters their subdivisions. These divisions serve for grouping observations; and the respective centres of areas serve as points of particular reference for "means" or averages.

Folio books, agreeing with each other in tabular arrangement, are numbered to correspond with the squares, and are

Digitized by Google

so methodised that every individual entry made from any register of uncorrected observations is duly recorded in its appropriate Table, so that it may be used singly or otherwise, and identified, or traced, at any future time.

If averages, or means, be required, of course these data are equally available; but the general principles of operation are, to let nothing be lost or confused, nothing be vitiated, and no doubt exist as to the authority for any fact.

There are in use at present about ninety collecting books, of tabular forms (data books), distributed and headed for the following subjects:—Barometer, Thermometer, Hydrometer, Winds, Weather, Currents, Variation, Soundings, Crossings, Passages, Storms, Ice, Shooting Stars, Meteors, Aurora, Earthquakes, and Electricity.

Entries are made in the tabular forms, as the logs, journals, or meteorologic registers are successively examined, some data being extracted, and recorded by one person—some by others—being excessively voluminous.

Remarkable passages in these documents, of peculiar interest, are noted for special publication.

To the present time, November 1863, not less than six thousand five hundred months of good meteorologic registration have been received from about one thousand selected ships in the mercantile navy.

More than eleven hundred selected merchant ships have been supplied by Government with tested and reliable instruments, *lent* to them, besides charts and books given *gratis*.

The character of these ships and their Captains may be inferred from the subjoined lists of those from whom logs, or registers, have been received.

According to these lists, the following distinguishing marks are authorised in the Mercantile Navy List by the President of the Board of Trade, namely:—

To those names included in the First List, the letter **A** may be affixed; to those in the Second, **B**; Third, **C**; and Fourth, **D**.

Five Captains (Boyd, Quirk, Toynbee, Trivett, and Wood,) having sent in meteorologic registers superior to others, prior to 1857, a valuable Telescope was presented to each of those gentlemen, by order of the President of the Board of Trade; and some Captains having sent in very superior Registers since 1856, a Telescope, Watch, or Sextant, was presented to three of those gentlemen, by order of the President of the Board of Trade.

In accordance with the directions of the President—as expressed above—a gold chronometer was presented to Captain Henry Toynbee, a sextant to Captain David Smith, and a telescope to Captain James Gales in 1858; since which 2900 months of good meteorologic observations at sea have been received from 450 ships.

The greater part of these registers are well filled with information not only useful to Seamen, but truly valuable to scientific enquirers into physical phenomena.

Some of the logs in the *first* lists, or class, are unequalled by other registers of a similar kind.

They do honour to those who have kept them, and to the Mercantile Navy of Great Britain.

NOTICE TO ALL CAPTAINS AND COMMANDING OFFICERS OF BRITISH VESSELS

RESPECTING

REGISTRY OF BIRTHS AND DEATHS AT SEA.

The Registrar-General of Births, Deaths, and Marriages in England hereby directs the attention of all Captains or Commanding Officers of British Vessels, to the following Provisions of the Act of the 6th and 7th of William IV., cap. 86, entitled "*An Act for Registering Births, Deaths, and Marriages in England*," namely:—

In the 21st Section it is enacted, "That if any child of an English parent shall be born at sea, on board of a British vessel, the Captain or Commanding Officer of the vessel on board of which the said child shall have been born, shall forthwith make a minute of the several particulars hereinbefore required to be inserted in the Register, touching the birth of such child, so far as the same may be known, and the name of the vessel wherein the birth took place, and shall, on the arrival of the vessel in any port of the United Kingdom, or by any other sooner opportunity, send a certificate of the said minute, through the Post-office, to the Registrar-General."

In the 26th Section of the same Act it is enacted, "That if any of His Majesty's English subjects shall die at sea, on board of a British vessel, the Captain or Commanding Officer of the vessel on board of which such death shall have happened shall forthwith make a minute of the several particulars hereinbefore required to be inserted in the Register, touching such death, so far as the same may be known, and the name of the vessel wherein the death took place, and shall, on the arrival of such vessel in any port of the United Kingdom, or by any other sooner opportunity, send a certificate of the said minute, through the Post-office, to the Registrar-General."

The following are the Schedules containing the particulars required to be inserted in the Register, so far as the same may be known:—

186 .—BIRTH of a Child at Sea, on Board of [*here name the Vessel*].

Born.	Name, if any.	Sex.	Name and Surname of Father.	Name and Maiden Surname of Mother.	Rank or Profession of Father.	Signature of Master of the Ship.

186 .—DEATH at Sea, on Board of [*here name the Vessel*].

Died.	Name and Surname.	Sex.	Age.	Rank or Profession.	Cause of Death.	Signature of Master of the Ship.

A minute should be made in the Ship's Log, and a copy of minute certified in the following manner, or to the effect, must be sent through the Post-office, by the first opportunity, addressed to the Registrar-General of Births, Deaths, and Marriages, *General Register Office, Somerset House, London.*

"I hereby certify that this is a true copy of the minute made in the Log of on the day of 18

NOTICE TO SHIP-OWNERS, SHIP MASTERS AND SEAMEN.

ACCOMMODATION FOR SEAMEN ON BOARD MERCHANT SHIPS.

Attention is called to the following provision of the Merchant Shipping Act, 1854, sect. 231.

The following Rules shall be observed with respect to accommodation on board (that is to say):—

1. Every place in any ship occupied by seamen or apprentices, and appropriated to their use, shall have for every such seaman or apprentice, if they sleep in hammocks, a space of not less than 9 superficial feet, and if they do not sleep in hammocks, a space of not less than 12 superficial feet, measured on the deck or floor of such place.

Digitized by Google

2. Every such place shall either be 6 feet in height from deck to deck, or shall have for every seaman and apprentice, if they sleep in hammocks, a space of not less than 54 cubic feet, and if they do not sleep in hammocks, a space of not less than 72 cubic feet.
3. Every such place shall be kept free from stores or goods of any kind, not being the personal property of the crew, in use during the voyage.
4. Every such place shall be properly caulked, and in all other respects securely and properly constructed and well ventilated.

And if any such place in any ship is not in the whole sufficiently large to give such space for each seaman and apprentice as hereinbefore required, or is not properly caulked, and in all other respects securely and properly constructed, and well ventilated, the owner shall for every such failure to comply with the provisions of this section incur a penalty not exceeding £20; and if any such space as aforesaid is not kept free from goods and stores as aforesaid, the Master shall for every such failure to comply with the provisions of this section incur a penalty not exceeding £10.

BOARD OF TRADE, *Marine Department, July*, 1855.

NOTICE TO SHIP MASTERS,

AS TO THEIR DUTY WITH RESPECT TO BRITISH CONSULS IN FOREIGN PORTS.

It having been reported that some Masters are in the habit of sailing from Foreign ports at which they have touched, without reporting their vessels to the Consuls, in accordance with the provisions of the Merchant Shipping Act, 1854, in this respect, the Board of Trade, before proceeding to enforce the penalties prescribed in such cases, desire to draw the attention of Masters of vessels to the following requirements of the statute:—

"Whenever any ship, in whatever part of Her Majesty's dominions the same is registered (except ships whose business for the time being is to carry passengers), arrives at any Foreign port where there is a British Consular Officer, or at any port in any British possession abroad, and remains thereat for forty-eight hours, the Master must, within forty-eight hours of the ship's arrival, deliver to such Consular Officer, or to the Chief Officer of Customs (as the case may be) the agreement with the crew, and also all indentures and assignments of apprenticeships, or in the case of a ship belonging to a British possession, such of the said documents as such ship is provided with.

"Such Officer will keep such documents during the ship's stay in such port, and in cases where any indorsements upon the agreement are required by the Act will duly make the same, and will return the said documents to the Master a reasonable time before his departure, with a certificate indorsed on the agreement, stating when the same were respectively delivered and returned.

"And if any Master fails to deliver any such documents as aforesaid, he will for every such default incur a penalty not exceeding £20; and in any prosecution for such penalty, it will lie upon the Master either to produce the certificate of the Consular Officer or Officer of Customs hereinbefore required, or to prove that he duly obtained the same, or that it was impracticable for him so to do.

"If the Master of any British ship discharges any seaman or apprentice in any place situate in any British possession abroad (except the possession in which he was shipped) without previously obtaining the sanction in writing indorsed on the agreement, of some public Shipping Master or other Officer duly appointed by the local government in that behalf, or (in the absence of any such functionary) of the Chief Officer of Customs, resident at or near the place where the discharge takes place; or,

"Discharges any seaman or apprentice at any place out of Her Majesty's dominions, without previously obtaining the sanction so indorsed as aforesaid of the British Consular Officer there, or (in his absence) of two respectable Merchants resident there; or

"Leaves behind any seaman or apprentice at any place situate in any British possession abroad on any ground whatever, without previously obtaining a certificate in writing so indorsed as aforesaid from such Officer or Person as aforesaid, stating the fact, and the cause thereof, whether such cause be unfitness or inability to proceed to Sea, or desertion, or disappearance; or

"Leaves behind any seaman or apprentice at any place out of Her Majesty's dominions, on shore or at sea, on any ground whatever without previously obtaining the certificate indorsed in manner and to the effect last aforesaid of the British Consular Officer there, or (in his absence) of two respectable Merchants, if there is any such at or near the place where the ship then is;

"He will, for each default, be deemed guilty of a misdemeanor."

BOARD OF TRADE, *August*, 1855.

NOTICE.—WRECKED PROPERTY.

TO FISHERMEN, BOATMEN, AND OTHER PERSONS WHO MAY FIND WRECKED PROPERTY.

Attention is called to the following provisions in the Merchant Shipping Act, 1854:—

All cargo and other articles, belonging to any ship or boat which is stranded or in distress at any place on the shore of the sea, or of any tidal water within the limits of the United Kingdom, that may be washed on shore, or otherwise be lost or taken from such ship or boat, must be delivered to the Receiver; and any person, whether he is the owner or not, who secretes or keeps possession of any such cargo or article, or refuses to deliver the same to the Receiver, or to any person authorised by him to demand the same, will incur a penalty not exceeding £100; and it is lawful for such Receiver or other person as aforesaid to take such cargo or article by force from the person so refusing to deliver the same.

The following rules shall be observed by any person finding or taking possession of wreck within the United Kingdom; that is to say:—

(1.) If the person so finding or taking possession of the same is the owner, he shall as soon as possible give notice to the Receiver of the district within which such wreck is found, stating that he has so found or taken possession of the same; and he shall describe in such notice the marks by which such wreck is distinguished.

(2.) If any person not being the owner finds or takes possession of any wreck, he shall as soon as possible deliver the same to such Receiver, as aforesaid;

And any person making default in obeying the provisions of this section shall incur the following penalties; that is to say:—

(3.) If he is the owner and makes default in performing the several things the performance of which is hereby imposed on an owner,

He shall incur a penalty not exceeding £100.

(4.) If he is not the owner and makes default in performing the several things the performance of which is hereby imposed on any person not being an owner,

He shall forfeit all claim to salvage;

He shall pay to the owner of such wreck, if the same is claimed, but if the same is unclaimed then to the person entitled to such unclaimed wreck double the value of such wreck (such value to be recovered in the same way as a penalty of like amount); and

He shall incur a penalty not exceeding £100.

The name and address of the Receiver, if not known, may be learnt from any Officer of Customs.

INSTRUCTIONS IN RESPECT OF WRECKS AND CASUALTIES.

SAVING LIFE FROM SHIPWRECK.

The control of the Mortar and Rocket Apparatus for saving life having been transferred to the Board of Trade, the Inspecting Commanders of Coast Guard are henceforth to communicate directly with that Department concerning all matters relating to the saving of life from shipwreck, or to the supply of stores necessary for the Mortar and Rocket Apparatus.

The Board of Trade wish the Mortar and Rocket Apparatus to be rendered and kept as efficient as possible, and with this object, request that at the various stations where there is such an Apparatus, the Inspecting Commander of the District will, on receipt of this Circular, cause the same to be carefully and thoroughly inspected, the life lines, &c. to be tested, and a full report for each Apparatus, on a separate Form Wr. 23., transmitted to the Board of Trade with as little delay as possible. Any new stores required are to be procured as directed in paragraph 166. The Form Wr. 23. can be obtained on application to any Superintendent.

The Board of Trade hold the Inspecting Commander responsible for the efficiency or otherwise of the Mortar and Rocket Apparatus in his district; and they require a report on the condition of the Apparatus to be made annually on Form Wr. 23., on the 30th June. The Board will, on all occasions, be glad to receive any observations and consider any suggestions that will in the opinion of Inspecting Commanders assist in the attainment of the object in view, viz., the Saving of Life from Shipwreck.

When an Inspecting Commander of a District thinks it desirable that a Mortar or Rocket Apparatus should be supplied to a Station at which none has been supplied before, he should write to the Board of Trade to that effect. In his application he should state his reasons for demanding the Apparatus, and why, if it is necessary, it has not been applied for sooner; the number of wrecks that have happened near the spot during the preceding five years; the nature of the coast, whether bounded by rugged cliffs or by a sloping bank; and whether in his opinion a Mortar or a Rocket Apparatus would be better adapted to meet the requirements of the locality. The application will then be taken into the consideration of the Board, and the Inspecting Commander will be advised of the result.

Should the Board determine on supplying the Apparatus, the following course is to be pursued:

(*a.*) The Inspecting Commander will be requested to make a demand by filling in the division marked (A.) on Form Wr. 24., and transmitting it to the Board of Trade.

(*b.*) On receipt of this demand the Board of Trade will examine it, and if found correct will send the Form Wr. 24. to Mr. Dennett, Captain Manby, &c., as the case may be, with a request (in division B.) that the Apparatus may be supplied, and forwarded to a port named by the Inspecting Commander.

(*c.*) The person supplying the Apparatus will advise the Inspecting Commander when it is about to be forwarded, and will receive his directions as to its transmission. When it is transmitted it will be accompanied by an inventory, and by the Form Wr. 24. (with division C. properly filled in).

(*d.*) When the Inspecting Commander receives the stores and the papers named above, he will cause the inventory to be read over; and on ascertaining that the stores received correspond with the description given in the inventory, he will fill in the certificate marked (D.) in the Form Wr. 24., and transmit that form, and the inventory, to the Board of Trade, when, if found correct, directions will be given for immediate payment.

In cases in which a complete Apparatus has already been supplied, and fresh stores are required to replace such parts thereof as are expended, worn out, or rendered useless, the Inspecting Commander of the Coast Guard may purchase them on the spot without first referring to the Board of Trade. In such cases when the goods have been supplied, he is to forward the accounts to the Board of Trade, with a certificate according to the following form, when directions will be given for payment of the amount:

"I hereby certify that the above stores have been received by me; that I have caused them to be thoroughly examined, and have found them to be of the best quality and workmanship throughout; that they are adapted to the requirements of the apparatus at the ———— station; and that the prices charged are fair and reasonable.

———————— *Inspecting Commander.*"

This arrangement does not apply in the case of Rockets, Quill Tubes, Rocket Frames, Stands, Poles, and Cartouches, which must be demanded by the Inspecting Commander on Form Wr. 24., as directed for a complete Apparatus in paragraph 165. above.

When expense has been incurred for labour or cart-hire in transporting the Mortar or Rocket Apparatus to the assistance of a ship in distress, the bill for the same is to be sent to the Inspecting Commander of the Coast Guard, or, where there is no Coast Guard, to the Collector of Customs; and the claimant is to be directed to apply at the Custom House for payment at the expiration of such a time as is sufficient to admit of the account being sent to, and again received from, the Board of Trade. The Inspecting Commander or Collector of Customs, after having certified thereon that the service performed was necessary, and the amount charged reasonable, will forward the bill to the Board of Trade for approval. It will, if approved, be returned to the Collector of Customs, with directions for payment.

SALVAGE.

In cases in which it is the Receiver's duty to deliver property to owners on security by bond, for payment of Salvage, Customs Duty, Fees and Expenses, as mentioned in paragraph 53. of the Instructions, he may in lieu of such bond, when the Owners wish it, take the security in the form of a Deposit in Cash.

In determining the amount to be deposited, the Receiver must be guided by the same rules as in determining the amount for which a bond on Form Wr. 6. would be given in accordance with paragraph 53. of the Instructions.

Money received on account of such deposits is to be brought into the Form Wr. 10. as receipts on account of "*Deposits for Salvage, &c.,*" and its disposal is to be duly accounted for.

FEES, EXPENSES, AND REMUNERATION.

When Officers and Men in the Coast Guard Service are employed in watching or protecting property, and make a claim for remuneration under paragraphs 79. and 123. of the Instructions, it must be made in duplicate on Form Wr. 15. a. Applications for such remuneration will not be entertained if made on any other form. A supply of the Form Wr. 15. a. can be obtained of any Superintendent.

In cases in which Receivers detain vessels for payment of Salvage services, but do not render any assistance to the master and crew when in distress, the day fees authorised by the last clause of Table V. in the schedule to the Act are to be charged: the £1. or 10*s.* per diem, as the case may be, is, however, not to be charged for every day *during which the vessel is in the Receiver's custody*, but only for such day or days as he is *actually employed* on service in connection with the vessel.

Assistant-Secretary, Marine Department.

DIRECTIONS TO MASTERS AND CREWS OF SHIPS IN CASES OF WRECK.

In the event of your vessel stranding within a short distance of the United Kingdom, and the lives of the crew being placed in danger, assistance will, if possible, be rendered from the shore in the following manner; namely,

1. A rocket or shot with a thin line attached will be fired

Digitized by Google

across your vessel. Get hold of this line as soon as you can, and when you have secured it let one of the crew be separated from the rest, and, if in the daytime, wave his hat or his hand, or a flag or handkerchief; or if at night let a rocket, a blue light, or a gun be fired, or let a light be displayed over the side of the ship, and be again concealed, as a signal to those on shore:

2. When you see one of the men on shore, separated from the rest, wave a red flag, or (if at night) show a red light and then conceal it, you are to haul upon the rocket line until you get a tailed block with an endless fall rove through it:

3. Make the tail of the block fast to the mast about 15 feet above the deck, or if your masts are gone, to the *highest secure* part of the vessel, and when the tail block is made fast let one of the crew, separated from the rest, make the signal required by article 1 above:

4. As soon as the signal is seen on shore a hawser will be bent to the whip line, and will be hauled off to the ship by those on shore:

5. When the hawser is got on board, the crew should at once make it fast to the same part of the ship as the tailed block is made fast to, only about 18 inches higher, taking care that there are no turns of the whip line round the hawser:

6. When the hawser has been made fast on board, the signal directed by article 1 above is to be repeated:

7. The men on shore will then pull the hawser taut, and by means of the whip line will haul off to the ship a sling, cot, or life buoy, into which the person to be hauled ashore is to get and be made fast. When he is in and secure, one of the crew must be separated from the rest and again signal to the shore as directed in article 1 above. The people on shore will then haul the person in the sling to the shore, and when he has landed will haul back the empty sling to the ship for others. This operation will be repeated until all persons are hauled ashore from the shipwrecked vessel.

8. It may sometimes happen that the state of the weather and the condition of the ship will not admit of a hawser being set up, in which case a sling or life buoy will be hauled off instead, and the persons to be rescued will be hauled through the surf instead of along the hawser.

Masters and crews of shipwrecked vessels should bear in mind that the success in landing them may in a great measure depend upon their coolness, and attention to the rules here laid down; and that by attending to them many lives are annually saved by the Mortar and Rocket Apparatus on the coasts of the United Kingdom.

The system of signalling must be strictly adhered to; and all women, children, passengers, and helpless persons should be landed before the crew of the ship.

T. H. FARRER,
Assistant-Secretary, Marine Department.

BOARD OF TRADE, *28th February*, 1857.

NOTICE.—OFFICIAL LOG BOOKS.

It having been represented to the Board of Trade, that, in many instances, Official Log Books required to be kept by the Masters of vessels, under the provisions of the Merchant Shipping Act, 1854, are delivered up to the Superintendents, at the termination of the voyages, in a very imperfect state, and that some of the entries required by the Act to be inserted therein are altogether omitted; the particular attention of Masters of vessels and others is directed to the requirements of the above-mentioned Act, in this respect, and to the penalties to which they will render themselves liable by neglecting to comply therewith.

No Forfeitures or Stoppages of Wages will be allowed unless entries of the causes justifying the deductions are made in the Official Log Books.

The clauses of the Act having reference to the entries, penalties, &c., will be found printed in pages 2 and 3 of the Official Log Books.

BOARD OF TRADE, *October*, 1855.

NOTICE TO OWNERS AND MASTERS OF STEAM VESSELS.

MERCHANT SHIPPING ACT, 1854.

Whereas it is provided by the Merchant Shipping Act, 1854, that ships proceeding to sea from any place in the United Kingdom shall be provided with boats as therein mentioned: And whereas it is also thereby provided that such boats shall be kept so as to be at all times ready for use: And whereas in the case of Passenger Steamers the said Boats and their equipments are periodically inspected by surveyors appointed by the Board of Trade: And whereas it has been brought to the notice of the Board of Trade that in the intervals between such inspections the plugs and the thole pins of the said boats not being attached by lanyards are frequently lost or mislaid, and that no supply of spare plugs and thole pins is kept in the boats, and that the other equipments of the said boats are frequently removed, by reason whereof the said boats are not kept fit and ready for use as required by the said Act: And whereas by the said Act it is further provided that "if any ship hereinbefore required to be provided with boats proceeds to sea without being so provided therewith, or if any such boats are lost or rendered unfit for service in the course of the voyage through the wilful fault or negligence of the Owner or Master, or if in case any of such boats being accidentally lost or injured in the course of the voyage the Master wilfully neglects to replace or repair the same on the first opportunity, or if such boats are not kept so as to be at all times fit and ready for use, then if the Owner appears to be in fault he shall incur a penalty not exceeding £100, and if the Master appears to be in fault he shall incur a penalty not exceeding £50:"

Notice is hereby Given,

That if by reason of such neglect as aforesaid the boats of any Passenger Steam vessels are found not to be at all times fit and ready for use, steps will be taken to enforce the said penalties.

BOARD OF TRADE, *September*, 1856.

This Notice is to be kept posted up inside and outside the Mercantile Marine Offices and Custom Houses.

NOTICE

TO MASTERS OF PASSENGER STEAMERS.

Whereas on the investigation into the circumstances which attended the recent collision between the "Mail" and "Excelsior" steam ships in the river Mersey, it appeared in evidence that almost immediately before the accident the "Mail" had been steaming at the rate of 10 or 11 miles an hour;

And whereas the Stipendiary Magistrate and the Naval Officer who conducted that inquiry, have stated in their report to the Board of Trade that the effect of the collision might have been less serious if that vessel had taken the precaution to reduce her speed on entering the Mersey;

And whereas the Board of Trade have power to cancel or suspend the certificate of any Master or Mate "when it is duly reported to them that the loss of any ship is owing to his wrongful act or default";

The attention of the Masters of Passenger Steamers is hereby called to the very serious responsibility which will rest upon them, if they allow their steamers to run at a high speed in waters frequented by shipping.

BOARD OF TRADE, *30th September*, 1856.

THE BOARD OF TRADE

Being desirous of encouraging Seamen to save their earnings, and of preventing as far as possible the risk of their losing their money after being "paid off" from their ships, have established

SEAMEN'S SAVINGS BANKS

at the Mercantile Marine Offices at the principal ports (Kirkwall, Lerwick, and Stornoway excepted).

Digitized by Google

The following are a few of the advantages which Seamen will derive by depositing their money therein :—

1st. That the Seamen's money will always be safe, it being under the care of the Board of Trade.

2nd. That they can pay their deposits first at one port and then at another, just as it may suit their convenience.

3rd. That they can withdraw at any port they please the whole amount of their deposits, or can withdraw portions of their money first at one port and then at another.

4th. That the deposits, if allowed to remain in the Seamen's Savings Bank, will be increased by the interest of £3 per cent. per annum which the Board of Trade allow to depositors.

5th. That in the event of the Seaman dying without a will, any deposit or interest that may have belonged to him will be paid over to his nearest relation or legal representative.

Seamen are therefore recommended to take from the pay table sufficient only for their immediate expenses, and deposit for safety the remainder of their wages in the Seamen's Savings Bank, where it will be increased by the interest which the Board of Trade allow.

When Seamen require to withdraw any of their money, all they will have to do will be to apply to the Superintendents at any of the ports (excepting those above named), when the whole, or a portion, of their money will be returned, free of expense, with any interest that may be due.

The Wives, Widows, and Children of Seamen are also allowed to open accounts in the Seamen's Savings Bank. Seamen are also allowed to deposit sums of money for their children, which the children can withdraw whenever required if they are above 14 years of age.

NOTICE.

As the Act of Parliament will not allow any person to have more than one account opened at a time in the Savings Banks in the United Kingdom, the depositor, on opening a new account, will be required to sign a declaration according to the following form, and if the depositor makes a false declaration he or she will risk the loss of the whole of their money :—

"In pursuance of the Act 9 Geo. IV., c. 92, I, the undersigned, '*a Seaman*,' do hereby declare, That I am desirous, in my own behalf, to make my *first* deposit in the Seamen's Savings Bank (established under the provisions of the Merchant Shipping Acts, 1854, 1855, and the Seamen's Savings Bank Act, 1856); and I further declare, that no account has been opened in the Seamen's Savings Bank in my name at this or any other port or ports in the United Kingdom, and that I am not entitled, directly or indirectly, to any deposit in or benefit from the funds of this or of any other savings bank in Great Britain or Ireland, nor to any other sum or sums standing in the name or names of any other person or persons in the books of the said savings bank above mentioned, except such sum or sums as may be standing in my name as trustee jointly with the name or names and on behalf of any other depositor or depositors, and except such benefit as I may be entitled to from being a member of a Friendly Society legally established.

"Witness my hand, this 1st day of October, 1856,

"*James Adams.*"

MONEY ORDERS

are granted by the Superintendents at the principal ports to Seamen and Apprentices free of expense, for the purpose of enabling them to send a part of their wages to their friends or relations residing at any other port in the United Kingdom.

SAILORS' HOMES

are established at the following places for the exclusive benefit of Seamen, where, in addition to being provided with board and lodging at the lowest possible rate, they have the advantage of being able to attend the Libraries and Reading Rooms free of expense. In some of the Homes Schools have been established, which afford to Seamen who are desirous of rising in their profession the opportunity of qualifying themselves to become Mates or Masters of vessels.

BOARD OF TRADE, WHITEHALL, *November*, 1856.

CAUTION TO OWNERS AND MASTERS OF PASSENGER STEAM VESSELS.

MERCHANT SHIPPING ACT, 1854.

Whereas it was reported to the Board of Trade that the steamer "Invincible," of Glasgow, was plying with passengers without having on board a proper and valid certificate from that Board, to the effect "that the provisions of the Merchant Shipping Act, 1854, with respect to the survey of that vessel and the transmission of declaration in respect thereof had been complied with," in accordance with the provisions of section 318 of the said Act:

And whereas by the said section the owner of the said vessel had rendered himself liable to a penalty of £100, and the Master of the said vessel had rendered himself liable to a penalty of £50, in allowing the said vessel to proceed on a voyage or excursion with passengers on board without having first received from the Board of Trade such valid certificate as aforesaid:

And whereas the Board of Trade thereupon caused proceedings to be instituted before the sheriff of the city of Glasgow, on the 21st October last, against John Barr, the owner, and Colin Gillies, the master of the said vessel, for recovery of the penalties aforesaid:

Now this is to give Notice,

That the said John Barr was convicted in the mitigated penalty of £50, and the said Colin Gillies in the mitigated penalty of £10.

NEGLECTING TO USE THE LEAD.

SUSPENSION OF MASTERS' CERTIFICATES.

OFFICE OF COMMITTEE OF PRIVY COUNCIL FOR TRADE,
Marine Department, Whitehall, Nov. 3, 1856.

SIR,—I am directed by the Lords of the Committee of Privy Council for Trade to transmit to the committee for managing the affairs of Lloyd's, the enclosed copy of a letter, addressed by this Board to the Underwriters' Association, Liverpool, in November last, on the subject of the *culpability of Ship Masters in neglecting to use the lead*, and I am to request that they will give publicity to the two following instances of wrecks, which have occurred within a recent period, and in which it has been reported that the accidents were attributable in a great measure to the neglect of this precaution. My Lords have suspended or cancelled the certificates of the Masters of the vessels.

The first case is that of the "Zebra" screw-steamer, which was lost near the Lizard Point, on the 22nd of July last. In reporting on this case, the Court, consisting of Mr. Mansfield, the stipendiary magistrate at Liverpool, and Capt. Schomberg, Emigration officer at that port,—stated, that they considered the omission of the use of the lead a very grave one, and one of the main causes of the loss of the ship. My Lords, therefore, suspended the certificate of Mr. W. E. Betts, the Master, for twelve months.

The second case is that of the "Brunelle," stranded near Girvan, on the 14th of September. The Local Marine Board of Greenock conducted the inquiry, and reported that the Master, Mr. Alexander L. Black, was guilty of misconduct by neglect of duty, tending to the serious damage of the ship; one important element in such neglect being the omission to use the lead. My Lords, in this instance, cancelled Mr. Black's certificate of service, and sanctioned his going up for examination for a certificate of competency, after a lapse of three months, in accordance with the recommendation of the Local Marine Board.

My Lords trust that the steps taken in these cases will tend to impress on Ship Masters the necessity of a due observance of the simple and obvious precaution, which has been so much neglected.

I am, Sir, yours &c.,
JAMES BOOTH.

To the Secretary, Lloyd's.

*** The letter to which reference is made, is again published, in order to remind Captains of the *consequences attached to the neglect of the use of the lead*:—

November 20, 1855.

"SIR,—I am directed by the Lords of the Committee of Privy Council for Trade to acknowledge the receipt of your letter of the 9th instant, relative to the neglect of Ship Masters to use the lead, and stating that the Liverpool Underwriters' Association are of opinion that an important advantage would be gained, were this Board to issue a notice to Masters of vessels that such neglect would be considered as misconduct.

"In reply, I am to request you to inform the Underwriters' Association that my Lords have directed their serious attention to the many cases of shipwreck which have recently been investigated under the provisions of the Merchant Shipping Act, 1854, in most of which, as they conceive, the casualty might have been avoided had the simple and obvious precaution of taking soundings been observed.

"My Lords are impressed with a belief that from a desire to avoid trouble and delay, or for other reasons, the proper use of the lead, even in thick or foggy weather, or when upon a dangerous coast, has become so habitually neglected in many branches of the Merchant Service, that Masters appear no longer to look upon it as a necessary part of their duty.

"My Lords gladly take this opportunity of expressing their decided opinion, that such conduct cannot be justified by any custom or practice, however prevalent; and the fact that this neglect has become common, affords, in their Lordships' opinion, the strongest reason for taking every possible means to check it; and they believe that there would be great public benefit and little individual hardship, in visiting with the severest penalties, persons who are found guilty of a fault so fatal in its consequences.

"My Lords have no doubt, from the terms of your letter, that the Underwriters' Association will concur with them in the views they take, and they are glad to have the opportunity of expressing those views, and of intimating, in as public a manner as possible, their intention to use all the means with which the law has intrusted them, to enforce the proper use of the lead on board Merchant Ships.

"I am, Sir, your obedient Servant,
"T. H. FARRER.

"*The Secretary to the Underwriters' Association, Liverpool.*"

NOTICE TO MASTERS AND SEAMEN.

CERTIFICATES OF DISCHARGE.

Certificates of Discharge and Character, which are of the greatest importance to seamen and their employers, are often lost, mislaid, or destroyed, and can seldom be kept so as to show continuous good service for many years. To meet this difficulty,—to enable seamen the more easily to keep a record of their services, and to enable Masters to judge of the character of seamen they employ, a new form of Certificate of Discharge and Character has been prepared. It is on parchment, and a tin box is supplied to keep it in. It contains space for entries in respect of more than 30 voyages.

A copy of the entries will be kept, from which, if the Certificate be lost, an official copy of it may be obtained. To insure accuracy, the entries will always be made at the Mercantile Marine Office, or if abroad, at the Consulate. Persons serving in the Home Trade who are not discharged at the Mercantile Marine Office may, if the Master will attend at the nearest Mercantile Marine Office, get the entries made there. A fee of One Shilling will be required when the Certificate is first issued, to meet the expense attending it, but there will be no other charge.

Further particulars may be learnt at the Mercantile Marine Offices.

T. H. FARRER, *Secretary.*

BOARD OF TRADE, WHITEHALL,
August, 1857.

CONSULAR FEES.

At the Court at Buckingham Palace, the 1st day of May, 1855, Present, the QUEEN'S Most Excellent Majesty in Council.

WHEREAS, by the fourth section of the Act of the sixth year of the reign of King George the Fourth, chapter eighty-seven, intituled "An Act to regulate the payment of salaries and allowances to British Consuls at foreign ports, and the disbursements at such ports for certain public purposes," it is amongst other things enacted, "that it shall and may be lawful for all Consuls-General and Consuls appointed by His Majesty, and resident within the dominions of any sovereign or any foreign state or power in amity with His Majesty, to accept, take, and receive the several fees particularly mentioned in the tables to this said Act annexed, for and in respect or on account of the several matters and things and official acts and deeds particularly mentioned in the said schedules, and that it shall and may be lawful for His Majesty, by any Order or Orders to be by him made, by and with the advice of his Privy Council, from time to time, as occasion may require, to increase or diminish or wholly to abolish all or any of the fees aforesaid, and to establish and authorise the payment of any greater or smaller, or new or additional fees or fee, for or in respect of the several matters and things mentioned in the said schedules or any of them, or for or in respect of any other matters or things, or matter or thing, to be by any such Consul-General or Consul done or performed in the execution of such his office."

And whereas, by an Order in Council made on the 14th day of April, 1851, it was ordered "that whenever a British Consul-General, Consul, or Vice-Consul should be called upon by masters of merchant ships to give his sanction in writing as to the shipment or discharge of seamen, or his certificate as to the desertion of seamen, it should be lawful for such Consul-General, Consul, or Vice-Consul, to demand, recover, and receive from all masters or chief officers, or commanders of any ship or vessel belonging to any of Her Majesty's subjects, the sum of two shillings for each seaman whose shipment or discharge should have been so sanctioned, or whose desertion should have been so certified; and that it should not be lawful for such Consul-General, Consul, or Vice-Consul to levy a larger fee for this service:"

And whereas it is expedient to abolish the fees mentioned in the tables to the said Act annexed, and in the said Order in Council of the 14th of April, 1851, and to establish and authorise the payment of other fees in lieu thereof: Now, therefore, in pursuance of the said Act and in exercise of the powers in Her Majesty in Council in that behalf vested by the said Act, it is hereby ordered by Her Majesty, by and with the advice of her Privy Council, that the several fees mentioned in the tables to the said Act annexed, and in the said Order in Council of the 14th of April, 1851, shall be abolished, and that the several fees mentioned in the table hereunto annexed, for the several matters mentioned therein, shall be substituted for the fees so abolished, and shall and may be taken accordingly, subject to the directions and restrictions contained in the notes appended to the said table.

And the right honourable the Earl of Clarendon, one of Her Majesty's principal Secretaries of State, is to give the necessary directions herein accordingly. WM. L. BATHURST.

NOTICE TO MASTERS AND MATES OF HOME TRADE PASSENGER SHIPS,

MEANING THEREBY,

Ships employed in carrying Passengers within the following Limits; viz. the United Kingdom, the Islands of Guernsey, Jersey, Sark, Alderney, and Man; and the Continent of Europe between the River Elbe and Brest inclusive.

GENERAL CERTIFICATES OF COMPETENCY OR SERVICE.

After the 1st day of May next no Home Trade Passenger Ship will be allowed to clear out or obtain a Transire at any Port in the United Kingdom, unless the Master and Mate are in possession of a Certificate either of Competency or of Service; and these Certificates must be produced half-yearly with the Articles of the Ship to some Superintendent. Ships of 100 tons burden and upwards must have a certificated Mate. Masters and Mates who go to sea without having the required Certificates, and Owners who knowingly employ them without such Certificates, are liable to a penalty not exceeding £50.

Certificates of Service will be granted to all Masters and Mates who have served as such in Home Trade Passenger Ships prior to the 1st day of January, 1854, and may be had after the 1st day of March next, on application to the Registrar-General of Seamen, 6, Adelaide Place, London, on sending in a Form of Claim, properly filled up, which may be had from any Superintendent.

Certificates of Competency will be granted by the Board of Trade to all such Masters and Mates as pass the examination for this particular service before one of the Local Marine Boards.

The Examinations before the Local Marine Boards will commence on the 1st day of March next, and all persons desirous of passing should apply to the Superintendents of the respective Ports.

A Certificate of Competency for a Foreign-going Ship is by the Act made equivalent to a Certificate of equal or lower grade for a Home Trade Passenger Ship, and entitles the holder to fill the situation of Master or Mate, as the case may be, in the latter description of Ship.

Certificates of Competency for Home Trade Passengers Ships will be of two kinds only; viz., for Masters and Mates respectively.

PILOTAGE CERTIFICATES.

After the 1st day of May next every Ship carrying Passengers between any place situate in the United Kingdom, or the Channel Islands, or the Isle of Man, and any other place so situate, must, during such times as she is navigating upon any waters for which Pilots are duly licensed according to Law, have a duly licensed Pilot on board, unless the Master or Mate possess a Pilotage Certificate of Service, or a Pilotage Certificate granted by some Pilotage Authority, or by the Board of Trade.

Pilotage Certificates of Service will be granted to all Masters who have satisfactorily piloted their own vessels for two complete years consecutively before the 1st day of May next.

In order to obtain these Certificates of Service application must be made to the Registrar-General of Seamen, 6, Adelaide Place, London, upon a Form which may be obtained from any Superintendent.

Other Pilotage Certificates are to be procured only after satisfactory examination before the legally constituted Pilotage Authority for the district for which the Pilotage Certificate is required, and all persons desirous of being examined for such a Pilotage Certificate for any particular Port or District should apply to the proper Pilotage Authority for that Port or District.

The earliest possible application should be made for Certificates of Service in order that no delay or inconvenience may be caused on and after the 1st day of May next, when the Act comes into operation.

Board of Trade, 1*st February*, 1855.

NOTICE TO MASTERS AND OWNERS

OF HOME TRADE SHIPS AND HOME TRADE PASSENGER SHIPS.

The Master or Owner of every Home Trade Ship must enter into a written agreement with the crew. The only exceptions are ships under 80 tons burden, employed exclusively between any place in the United Kingdom, and any other place so situate.

Every ship, of whatever tonnage, proceeding to any foreign port, within the limits of Brest and the river Elbe, must be provided with a Home Trade agreement, and also with an Official Log Book.

Agreements made at any time during the six Months next preceding the 30th day of June or the 31st day of December, are to terminate on those dates respectively in every year, and the Masters or Owners are bound, under a penalty of £5, to deposit every Agreement so made, and also the Official Log Book (if any), with some Superintendent, within twenty-one days after the above dates, *i.e.*, after the expiration of the Agreement.

MEMORANDUM

CONCERNING PILOTAGE CERTIFICATES UNDER THE MERCHANT SHIPPING ACT, 1854.

BOARD OF TRADE, *7th May*, 1855.

As some misconception appears to exist as to the nature and effect of Pilotage Certificates, issued by the Board of Trade, under the 355th Section of the Merchant Shipping Act, 1854, the following explanation is issued by direction of the Board of Trade.

By the 354th Section of the Act above referred to, Ships carrying Passengers between places situate in the United Kingdom and the Channel Islands are bound to take Pilots whether they have or have not been previously subjected to compulsory pilotage. The obligation thus imposed is a new obligation, and totally independent of local acts or regulations.

But as the above obligation has for its object to require that such ships as aforesaid shall be navigated by persons acquainted with the local navigation, an exception is introduced in favour of those vessels in which the Masters or Mates possess certain Pilotage Certificates. These Pilotage Certificates are of two classes.

First. Certificates granted by Pilotage authorities, or by the Board of Trade, upon examination in pursuance of Sections 340 to 344.

Secondly. Certificates granted by the Board of Trade, under Section 355.

The respective effect of these two Classes of Certificate is very different. A Certificate of the former Class exempts not only from the new obligation imposed by Section 354, but also from all obligations to employ Pilots or to pay Pilotage imposed by Local Acts. A Certificate of the latter Class exempts only from the new obligation imposed by Section 354.

Any person, therefore, who obtains a Certificate of the former Class can obtain no additional exemption by a Certificate of the latter Class; nor will a Certificate of the latter Class prevent him from being liable to the payment of any Fees to Pilotage authorities lawfully demanded by them, under Local Acts or Regulations.

Where Pilotage authorities have heretofore been in the habit of granting Pilotage Certificates or Licences, particular attention should be given to Sections 340 to 344 of the Act above referred to, so that their future practice may be in accordance with those Sections; and so that the Fees demanded by them may be submitted for the approval of the Board of Trade.

CHOLERA.

INSTRUCTIONS TO CAPTAINS OF SHIPS ISSUED BY THE GENERAL BOARD OF HEALTH.

Captains of Ships are hereby warned,—

I. WHAT TO AVOID.

OVERCROWDING.—The amount of breathing space for the men which may suffice in ordinary times is insufficient in an epidemic season. Increase space as much as practicable. Permit no sails, large trunks, or any part of the cargo to occupy the forecastle. If sufficient additional space cannot be otherwise obtained, erect a temporary tent on deck by awning, sails, &c., for the men at night, taking care that they sleep warm and dry. Ventilate the forecastle and every part of the ship with fresh air as freely as possible. Pure air is the first essential requisite to safety.

DAMPNESS.—To lessen the danger from dampness let the boards be dry-rubbed. Let the men change their wet clothes whenever practicable, and never allow the wet clothes to remain below an instant. A thick flannel belt or bandage around the stomach or loins would be a great defence for sailors. Flannels or Guernsey frocks should be worn next the skin. Sudden and violent attacks of Cholera often follow a chill.

FILTH.—Let every part of the ship be kept as clean and sweet as possible, and enjoin personal cleanliness on the men. Vessels affected by bilge water should be pumped out frequently, especially steamers.

UNWHOLESOME FOOD.—Articles of food which may be taken with little inconvenience in ordinary times may be dangerous in an epidemic season. The best articles of food are meat, good biscuits, rice, oatmeal, and good potatoes. Solid food is better than fluids, and therefore at this time it would be desirable to give the crew beef and mutton instead of soup. Care should be taken to avoid all tainted meat and decayed vegetables. Special attention should be paid to having a supply of pure water. All *river water near towns should be avoided.*

EXCESS.—Great moderation both in food and drink is absolutely essential to safety. A single act of indiscretion has been followed by a severe attack; intemperance at such a time is fraught with extreme danger. An epidemic atmosphere commonly produces great depression, both of body and mind, and a desire for stimulants. If for the relief of this feeling recourse be had to gin or brandy, the result may be fatal.

PURGATIVE MEDICINES.—No purgative medicines of any kind should be taken at this season—unless under medical direction. Glauber's Salts and Epsom Salts are especially dangerous. Owners and Masters should provide themselves with the necessary medicines immediately.

II. WHAT TO DO.

Cholera is commonly not so sudden in its attack as is supposed. It usually gives warning of its approach for some hours, and often for a day or two, by some degree of looseness of the bowels. This may be slight, and it is almost always without pain; but let no one be put off his guard by this circumstance. The Master should, by observation and inquiry, take notice of the health of the crew; and for his guidance, until such time as he may be able to obtain medical assistance, the following recommendations are subjoined:—

If any man should be attacked with any degree of looseness in the bowels the following medicine should be given to him at once: Fifteen or Twenty grains of Opiate confection, mixed with Two tablespoonfuls of Peppermint water, or with a little weak brandy and water warm. This should be repeated every three or four hours, or oftener if the attack is severe. If this medicine is not at hand, Eight or Ten drops of Laudanum may be substituted for the Opiate confection.

If the purging is severe, and especially if attended with vomiting or coldness, the man should go to bed immediately, and be kept warm. Bottles of hot water, or bags filled with hot salt or bran, should be applied to the stomach and feet and along the spine.

A large poultice of mustard and vinegar should be put over the stomach, and kept on fifteen or twenty minutes. The above medicines should be continued every hour, or every two or three hours, according to the emergency of the case, until a doctor can be got. Rest and warmth in bed are essential until medical assistance arrives; but not a moment should be lost in seeking medical aid.

NAVIGATION SCHOOLS,

in connection with the Board of Trade and with the Educational Department of the Committee of Privy Council give Instruction not only for boys destined for a seafaring life, but also for Mates and Masters who wish to take the Certificates of the Board of Trade, and for Seamen and Apprentices desirous of becoming acquainted with the principles of navigation. Schools are now established at the following ports:—ABERDEEN, HULL, LEITH, LIVERPOOL, SUNDERLAND, GLASGOW, DUNDEE, and WATERFORD.

In London at:—The SAILORS' HOME, Well Street; MR. GREEN'S SAILORS' HOMES, BLACKWALL and POPLAR.

The Course of Instruction embraces Reading, Writing, Arithmetic, Geography, Sextant Observing, Chart Drawing, Geometry, Algebra, Trigonometry, The Sailings, Use of the Nautical Almanac, and Mathematical Tables, Methods of determining the Latitude and Longitude, Principle and Construction of Chronometers, Nautical Surveying, Compasses and Magnetism of Ships, Theory of Winds, Tides, and Currents, Methods of taking and recording Meteorological Observations, the Principles and Construction of the Steam

Engine as applied to the Paddle Wheel and Screw Propeller, Methods of Keeping Ships' Books, with other subjects relative to a seafaring life.

The Instruction of both Sections will be conducted by Teachers who have been educated and trained at the Royal Naval Schools, Greenwich Hospital, and hold Certificates of Competency.

A junior division is attached to each School, in which boys, about to enter on a seafaring life, are well taught in the above subjects, and also in Arithmetic, Book-keeping, Elementary Mathematics, Physical Geography, and subjects relating to trade.

The Schools for adults consist of two divisions: one for Seamen, the other for Masters and Mates. The fees vary slightly in different ports, but generally are (per week), for Seamen, 1s.; Second Mates, 2s. 6d.; Masters and First Mates, 5s.

In the juvenile Schools the fee is 6d.

For general information apply to the Secretary, Department of Science and Art, Cromwell Road, South Kensington. And as regards admission to existing Schools, to their respective Secretaries.

ADMISSION OF OFFICERS INTO THE ROYAL NAVY FROM THE MERCANTILE MARINE.

ADMIRALTY, *March 14th*, 1855.

THE Lords Commissioners of the Admiralty, being desirous to encourage gentlemen from the Merchant Service to enter the Royal Navy in the rank of Second Master, are pleased to invite such Officers as can comply with the requirements of the Queen's Regulations (copy of which is subjoined), to offer themselves for such appointments.

The Admiralty are also pleased to invite Officers who may not be able fully to comply with these requirements, to offer themselves for the appointment of Acting Second Master, provided they shall have completed four years' service at sea, have filled some of the ratings required by the Queen's Regulations before mentioned, shall have completed the full age of 18 years, and shall produce satisfactory proof of diligence, sobriety, and good conduct. The Board of Admiralty are willing to guarantee to them on their completing the necessary period of service in the Royal Navy, and on their conforming in all respects to the requirements at such time existing, their confirmation to the rank of Second Master in Her Majesty's Service, with all the further advantages to be derived from such rank, both as regards Half-Pay and the prospect of future advancement to the rank of Master, &c.

Officers making application must state distinctly their age, the Ships in which they have served, length of service, Ratings, &c., addressing such application to *The Secretary of the Admiralty*, when their claims will receive immediate attention.

EXTRACT FROM THE NEW REGULATIONS RESPECTING SECOND MASTERS IN THE NAVY.

1844.

"To qualify an Officer to receive a Commission as Second Master, he must have served at least six years at sea, three of which in Her Majesty's Navy as Midshipman or Master's Assistant; or having served six years at sea, shall have actually been one year or more Master, or two years Chief Mate, or three years Inferior Mate of a Merchant Vessel; or shall have served in the two former capacities in a Merchant Vessel for a period, when combined, of eighteen months, or in the two latter, or in the three capacities for a period combined of two years and a half. He shall produce Certificates of diligence, sobriety, and good conduct, as required in the case of Masters; and shall pass such examination as the Admiralty may from time to time direct; but no candidate shall be examined before he shall have attained the age of 19 years, nor after the age of 35."

The following further Notice relative to the admission of officers into the Royal Navy from the Mercantile Marine has been issued by the Admiralty.]

"ADMIRALTY, *March 26th*, 1855.

"With reference to the circular order of the 14th March, 1855, inviting officers from the Mercantile Marine to offer themselves for the appointment of Acting Second Master in the Royal Navy, the Lords Commissioners of the Admiralty are pleased to direct that such candidates as do not possess the full qualifications prescribed by Admiralty Circular, No. 58, of 17th November, 1849, published in the Quarterly Navy List, shall undergo a preliminary examination before the Hydrographer of the Admiralty and two Masters, previous to receiving an acting appointment; such preliminary examination to be subject to the final examination that would be required before confirmation to the rank of Second Master. Copy of what is required of those candidates who may present themselves for examination before the Hydrographer of the Admiralty is annexed."

ACTING SECOND MASTERS.

It will be required of candidates who present themselves at the Admiralty for examination for the appointment of Acting Second Masters—

That they shall be 18 years old: shall have been four years at sea: shall produce satisfactory testimonials.

Shall have a tolerable general knowledge of the pilotage of the Channel from the North Foreland to the Land's End, including the Downs, Spithead, and Plymouth Sound.

A fair knowledge of seamanship at the discretion of the Examining Officers; also of the stowage of the Ship's hold.

In navigation, they must be able to work a day's work; to find the latitude by meridian altitude of the sun, longitude by chronometer, and variation of the compass by amplitude and azimuth.

A competent knowledge of the tides, so as to be able to find the time of high water on any given day at any given place.

OFFICIAL NUMBERS OF MERCHANT SHIPS.

CUSTOM HOUSE, LONDON,
9th April, 1855.

Notice is hereby Given,

That the New System of Registry for British Ships under the Merchant Shipping Act, 1854, will come into operation on the 1st May next; but in order to facilitate the Appropriation of Official Numbers to British Ships, instructions have been furnished to the principal Officers of the Customs at the various Ports of the United Kingdom to commence the appropriation on the 16th instant; and on the production to such Officers, at any of the said Ports, of the Certificate of Registry of any Ship, an Official Number will be appropriated and affixed thereto; and as the object to be attained is the better identification of British Ships, it is desirable that the Masters should present the Certificates of Registry at the first Port at which they shall arrive on and after the 16th instant.

By Order of the Commissioners,
W. MACLEAN, *Secretary*.

The Lords Commissioners of the Admiralty having been pleased to direct the Captains and Commanders of her Majesty's ships to make reports of all the Merchant Vessels they meet at Sea which signalise their Official Numbers, Masters of Merchant Vessels desirous of availing themselves of this regulation, in order that their Names may be published in the Shipping Lists, should provide the Four Flags which represent the Signal Letters appropriated to them in the commercial code of Signals for the use of all Nations, which has been sanctioned by the Board of Trade.

OFFICE OF COMMITTEE OF PRIVY COUNCIL FOR TRADE,
MARINE DEPARTMENT,
WHITEHALL, *December 9th*, 1857.

SIR,—I am directed by the Lords of the Committee of Privy Council for Trade to acquaint you, that the Registrar-General

of Seamen has brought under the notice of this Board, that it might be found of advantage in carrying out the object of the New Code of Signals and the Mercantile Navy List, if the distinguishing Signal of a British Vessel were indorsed on her Register, conjointly with the Official Number, when appropriated by the Registrar of Shipping.

At present the Registrars are unable to furnish the four letters representing the Flags which make the Signals corresponding with the Official Number, because the unappropriated numbers are not all published in the Mercantile Navy List, and they have no means of finding the Signals by a Table or otherwise.

To obviate this difficulty the Registrar of Seamen has, with my Lords' approval, determined to publish in the Mercantile Navy List for 1858, so many of the unappropriated official numbers and their corresponding Signals, as are likely to be required for the year following the publication, and to continue to do so in each annual edition of the List.

My Lords therefore request, that you will move the Commissioners of Customs, should they see no reason to object, to issue directions to all Registrars at home, to furnish, by indorsement on each Ship's Register, her distinguishing Signal at the time she receives her Official Number.

As soon as the Instructions are prepared for home use, copies can be sent to the Colonial Office for distribution among Registrars in the Colonies.

I am, Sir, your obedient Servant,

T. H. FARRER.

The Secretary of Customs.

CUSTOM HOUSE, LONDON,
19*th December*, 1857.

The afore-going copy of a Letter from Mr. Farrer, Secretary to the Marine Department at the Board of Trade, is transmitted to the Collector and Comptroller at ——— for their guidance.

By Order of the Commissioners,

F. G. GARDNER.

COPY OF A MINUTE OF THE BOARD OF CUSTOMS OF THE 9TH JANUARY, 1858.

THE Board have had under consideration a Letter from the Registrar-General of Seamen to the Board of Trade, dated the 31st ultimo, suggesting, with reference to the Instructions issued by the General Order, No. $\frac{113}{1857}$, requiring the distinguishing signal of a British Ship to be indorsed on her Certificate of Registry conjointly with the official number, when appropriated by the Registrar of Shipping, that it would greatly conduce to the establishment of a system under which every vessel could make known her identity *by one special signal* if the Letters were also indorsed upon *existing* Certificates of Registry;

The Board direct, that the Signal Letters found in the Mercantile Navy List, appropriated to the respective Official Numbers of Ships already registered, be indorsed by the Registrar upon existing Certificates of Registry when the same are presented for the purpose of reporting or clearing the vessel.

And Copies of this Minute are to be delivered to the Collector at this Port and transmitted to the Collector and Comptrollers at the Out-Ports for their information and guidance.

CUSTOM HOUSE, LONDON,
14*th January*, 1858.

The afore-going Copy of the Board's Minute of the 9th instant is transmitted to the Collector and Comptroller at ———

By Order of the Commissioners,

J. B. HALE.

TO OWNERS AND MASTERS OF FOREIGN VESSELS.

Owners and Masters desirous of having the Names of their Vessels inserted in the forthcoming "Mercantile Navy List," and its Monthly Supplements, in order that a Signal may be appropriated, by means of which their identity can be made known to passing Ships, or to Signal Stations, so that they may be reported in the Shipping Lists, are requested to forward, through the Consuls of their Nations, or an established London Agency, the following particulars:—

The Name of the Vessel in full. Tonnage.
Horses Power, if a Steam Vessel. Port of Registry.
National Flag under which the Vessel sails.

All communications to be addressed to J. J. Mayo, Esq., Registrar-General of Shipping and Seamen, Adelaide Place, London Bridge, E. C.

BYE-LAWS RESPECTING

PILOTAGE IN THE LONDON DISTRICT AND TRINITY HOUSE OUT-PORT DISTRICTS.

At the Court at Windsor, the 21st day of November, 1855,
Present, the QUEEN'S Most Excellent Majesty in Council.

WHEREAS ships arriving from foreign parts at ports or places within the United Kingdom, and proceeding in ballast to other ports or places within the United Kingdom, for the purpose of taking on board cargo for delivery within the United Kingdom, are not exempted from compulsory pilotage when so navigating in ballast.

And whereas it is expedient that such ships should have the privilege of being exempt from compulsory pilotage.

And whereas by the 332nd section of the "Merchant Shipping Act, 1854," it is enacted, that "every pilotage authority shall have power, by bye-law, made with the consent of Her Majesty in Council, to exempt the Masters of any ships, or of any classes of ships, from being compelled to employ qualified pilots, and to annex any terms and conditions to such exemptions."

And whereas the Trinity House, being a pilotage authority, hath submitted, for the consent of Her Majesty in Council, the following bye-law, videlicet:—

"That all ships which shall arrive from foreign parts at ports or places in the United Kingdom, within the pilotage jurisdiction of the Trinity House, shall when navigating from thence in ballast to a port or place in the United Kingdom, for the purpose of taking on board cargo for delivery at some other port or place in the United Kingdom, be exempt from compulsory pilotage while navigating within the limits of such pilotage jurisdiction, subject, nevertheless, to the terms and conditions following, that is to say:—

1. That the owner or Master of the ship claiming exemption from such compulsory pilotage shall provide himself with a certificate of such exemption for the particular voyage therein specified; such certificate to be signed by the secretary or other proper officer of the Trinity House, and to be delivered to the owner or master of such ship, upon his making a declaration, setting forth that the said ship last arrived from foreign parts, and is about to navigate in ballast to some port or place in the United Kingdom, for the purpose of taking on board cargo, for delivery at another port or place, also in the United Kingdom, and such ports or places being named in such declaration. And further, that the master of such ship shall produce the said certificate, to any duly licensed Trinity House pilot, who shall offer his services to pilot such ship on such voyage; and such master shall, on every such occasion, make an entry in the ship's log, of the offer by a Trinity House pilot; of the certificate of exemption having been produced

to the said pilot; and of his services having been declined.

2. That in every case in which a certificate of exemption shall have been obtained by misrepresentation, the person on whose application such certificate shall have been granted, shall forfeit double the amount of the pilotage to which the ship so exempted would, but for such certificate, have been liable; to be recovered in like manner as penalties are recoverable under the said Act; and
3. That in every case in which a ship, for which a certificate of exemption has been granted, shall proceed over sea, either before or after arriving at the port or place specified in such certificate, without navigating with cargo to some other port or place in the United Kingdom, the pilotage to which such ship would have been liable, had a pilot been employed, shall be paid to the pilotage authority or sub-commissioners of the district, and be applied to the purposes of the pilotage fund."

Now, therefore, Her Majesty, having taken the said bye-law into consideration, is pleased, by and with the advice of her Privy Council, and by virtue of the power vested in her by the said recited Act, to declare her consent to the same, and the said bye-law is hereby approved accordingly.

(Signed) W. L. Bathurst.

At the Court at Buckingham Palace, the 16th day of July, 1857, Present, the QUEEN'S Most Excellent Majesty in Council.

Whereas, by the 379th section of "The Merchant Shipping Act, 1854," it is enacted that "the following ships, when not carrying passengers, shall be exempted from compulsory pilotage in the London District, and in the Trinity House Outport Districts (that is to say):—

"1. Ships employed in the coasting trade of the United Kingdom.
"2. Ships of not more than 60 tons burthen.
"3. Ships trading to Boulogne, or to any place in Europe north of Boulogne.
"4. Ships from Guernsey, Jersey, Alderney, Sark, or Man, which are wholly laden with stone, being the produce of those islands.
"5. Ships navigating within the limits of the port to which they belong.
"6. Ships passing through the limits of any pilotage district, on their voyages between two places both situate out of such limits, and not being bound to any place within such limits, nor anchoring therein."

And whereas it is expedient that such ships as aforesaid shall be exempted from compulsory pilotage as well when carrying passengers, as when not carrying passengers; and, by the 332nd section of the said Act, it is enacted that every pilotage authority shall have power by bye-law, made with the consent of Her Majesty in Council, to exempt the Masters of any ships, or of any classes of ships, from being compelled to employ qualified pilots; and to annex any terms and conditions to such exemptions; and to revise and extend any exemptions now existing by virtue of the said Act upon such terms and conditions, and in such manner, as may appear desirable to such authority.

And whereas the Trinity House, as a pilotage authority under the said Act, has submitted for the consent of Her Majesty in Council the following bye-law; viz.:

"That all ships mentioned in the 379th section of 'The Merchant Shipping Act, 1854,' shall be exempted from compulsory pilotage in the London District, and in the Trinity House Outport Districts, as well when carrying passengers as when not carrying passengers, provided, as regards any such ship when carrying passengers, the Master or his Mate have a pilotage certificate in force for the time being, enabling such Master or Mate to pilot such ship within such district or districts, granted under the provisions either of the 340th or of the 355th section of the said Act."

And whereas it has been made to appear to Her Majesty that the said bye-law is proper and reasonable:

Now, therefore, Her Majesty, by virtue of the power vested in her by the said recited Act, and by and with the advice of her Privy Council, is pleased to approve, and doth hereby approve and signify her consent to, the said bye-law, as a bye-law of the Corporation of the Trinity House of Deptford Strond.

(Signed) C. C. Greville.

At the Court at Buckingham Palace, the 16th day of July, 1857, Present, the QUEEN'S Most Excellent Majesty in Council.

Whereas, by the 340th section of "The Merchant Shipping Act, 1854," it is enacted, that "the Master or Mate of any ship may, upon giving due notice and consenting to pay the usual expenses, apply to any pilotage authority to be examined as to his capacity to pilot the ship of which he is master or mate, or any one or more ships belonging to the same owner, within any part of the district over which such pilotage authority has jurisdiction, and such Master or Mate shall, if such authority thinks fit, thereupon be examined, and, if found competent, a pilotage certificate shall be granted to him, containing his name, a specification of the ship or ships in respect of which he has been examined, and a description of the limits within which he is to pilot the same, such limits to be within such jurisdiction as aforesaid; and such certificate shall enable the person therein named to pilot the ship or any of the ships therein specified of which he is acting as Master or Mate at the time, but no other, within the limits therein described, without incurring any penalties for the non-employment of a qualified pilot."

And whereas by the 332nd section of that Act, it is enacted that "Every pilotage authority shall have power, by bye-law made by the consent of Her Majesty in Council, to exempt the Masters of any ships, or of any classes of ships, from being compelled to employ qualified pilots, and to annex any terms or conditions to such exemptions, and to revise and extend any exemptions now existing by virtue of the said Act, or any other Act of Parliament, law, or charter, or by usage, upon such terms and conditions and in such manner as may appear desirable to such authority."

And whereas it appears desirable to the Trinity House of Deptford Strond, as a pilotage authority under the said Act, to revise and extend the exemptions now existing by virtue of the said Act, upon the terms and conditions and in manner hereinafter mentioned; and the Trinity House have for that purpose submitted to Her Majesty in Council the following bye-law, viz.:

"That any Master or Mate who holds a pilotage certificate granted by the said Trinity House under the said Act, enabling him to pilot any ship or ships, shall be qualified to pilot any other ship or ships belonging to the same owner or owners as the ship or ships for which his certificate was granted, within the limits described in such certificate, without being compelled to employ a pilot, on the following conditions, viz.:

"That the ship or ships which he is so qualified to pilot shall be of no greater draught of water than the ship or ships in respect of which his certificate was granted.

"And that the name and description of every ship which he is so qualified to pilot shall have been by or with the consent of the said Trinity House first added to, or indorsed upon, his certificate."

And whereas it has been made to appear to Her Majesty that the said bye-law is proper and reasonable;

Now, therefore, Her Majesty, by virtue of the power vested in her by the said recited Act, and by and with the advice of her Privy Council, is pleased to approve, and doth hereby approve and consent to, the said bye-law as a bye-law of the Corporation of the Trinity House of Deptford Strond

NOTICE TO OWNERS AND MASTERS.

THE ATTENTION OF OWNERS AND MASTERS OF HOME TRADE SHIPS

Is hereby called to the second part of the 162nd Section of the "Merchant Shipping Act, 1854," which provides that "within 21 days after the 30th day of June, and 31st day of December, in every Year, they shall transmit or deliver to some Superintendent in the United Kingdom, every agreement made within the six calendar months next preceding such days respectively;" and shall also in the case of

HOME TRADE PASSENGER SHIPS

produce to the Superintendent the Certificates of Competency or Service, which the said Master and his first or only Mate, as the case may be, are required to possess.

And it is further provided, that "if the Agreement of any Home Trade Ship is not delivered or transmitted by the Master or Owner to a Superintendent at the time and in the manner above directed, such Master or Owner shall for every default incur a penalty not exceeding FIVE POUNDS."

As much irregularity in these respects is constantly occurring, notice is hereby given that strict orders *are* issued to the various officers of Customs not to grant a Clearance or Transire for any such Ship as aforesaid, without the production of a Certificate certifying that these Documents have been delivered up or produced, as above directed.

BOARD OF TRADE, WHITEHALL,
March 1859.

NOTICE TO MASTERS OF SHIPS.

ENTRIES IN OFFICIAL LOG BOOKS.

Considerable inconvenience having been experienced in consequence of the neglect of Ship Masters to make in their Official Log Books the entries required by the Merchant Shipping Act, the attention of Masters is called to the sections of the Act which are given in the Second and Third Pages of the Official Log Book.

Especial attention is directed to the following points:—

Every neglect or omission to make the entries required by Act subjects the Master to a penalty not exceeding £5.

Every neglect or omission to enter an offence deprives the Master of his ordinary powers of enforcing punishment for such offence on his return, whether by imprisonment, forfeiture of wages, or otherwise.

Every neglect or omission to enter deductions from the wages of seamen who die, prevents the Master and his Owners from obtaining the benefit of such deductions.

The Superintendents have orders to verify all statements respecting fines, forfeitures, dead men's wages, discharges or desertions, by reference to the Official Log Book; and to report all cases whenever such entries do not occur in proper form with the proper signatures of the attesting parties.

BOARD OF TRADE, *August*, 1857.

CAUTION.

CONVICTION UNDER THE MERCHANT SHIPPING ACT.

THAMES POLICE COURT, LONDON.—On the 20th March, 1857, WILLIAM WEAVER and THOMAS PALMER, lodging-house keepers, were summoned by Order of the Board of Trade, under section 176 of the "Merchant Shipping Act, 1854," which enacts, that "every person who makes, assists in making, or procures to be made, any false certificate or report of the service, qualifications, conduct, or character of any seaman, knowing the same to be false, or who forges, assists in forging, or procures to be forged, or fraudulently alters, assists in fraudulently altering, or procures to be fraudulently altered, any such certificate or report, or who fraudulently makes use of any certificate or report, or of any copy of any certificate or report which is forged or altered or does not belong to him, shall, for each such offence, be deemed guilty of a Misdemeanour," and may be summarily punished before a Magistrate, by a penalty of ONE HUNDRED POUNDS, or by *Imprisonment with hard labour* for any term not exceeding *Six Months*.

And, by 11 and 12 Vict. cap. 43, section 5, "every person who shall aid, abet, counsel or procure the commission of any offence, which is or hereafter shall be punishable on summary conviction, shall be liable to be proceeded against and convicted for the same, either together with the principal offender, or *before* or *after* his conviction, and shall be liable on conviction to the same forfeiture and punishment as such principal offender is or shall be by law liable, and may be proceeded against and convicted either in the county, riding, division, liberty, city, borough, or place where such principal offender may be convicted, or in that in which such offence of aiding, abetting, counselling or procuring may have been committed."

The defendants having been found guilty of aiding and abetting one JAMES LIVINGSTON, a seaman, in unlawfully and fraudulently making use of a certain certificate and report of the service, conduct, character, and qualifications of JOHN PUTTMAN, a seaman; the Magistrate sentenced WEAVER to pay a fine of FIFTY POUNDS, or to be *Imprisoned for three Months*, and fined PALMER in the sum of TEN POUNDS, or *One Month's Imprisonment*.

CAUTION.

CONVICTION FOR SUPPLYING SEAMEN WITHOUT A LICENCE.

November 11th, 1857.

PETER MCLEER, of Canning Place, Liverpool, was convicted in the full penalty of £20, and £2 12s. costs, under the 147th Section of the Merchant Shipping Act, wherein it is enacted that

"If any person not licensed as aforesaid, other than the Owner or Master or a Mate of the ship, or some person who is *bonâ fide* the Servant and in the constant employ of the Owner, or a Superintendent duly appointed as aforesaid, engages or supplies any Seaman or Apprentice to be entered on board any ship in the United Kingdom, he shall for each seaman or apprentice so engaged or supplied, incur a penalty not exceeding £20:

"If any Person employs any Unlicensed Person, other than Persons so excepted as aforesaid, for the purpose of engaging or supplying any Seaman or Apprentice to be entered on board any ship in the United Kingdom, he shall, for each Seaman or Apprentice so engaged or supplied, incur a penalty not exceeding £20, and if Licensed, shall in addition forfeit his Licence:

"If any person knowingly receives or accepts to be entered on board any ship any Seaman or Apprentice who has been engaged or supplied contrary to the provisions of this Act, he shall, for every Seaman or Apprentice so engaged or supplied, incur a penalty not exceeding £20:"

Also, by section 148—

"If any person demands or receives, either directly or indirectly, from any Seaman or Apprentice, or from any person seeking employment as a Seaman or Apprentice, or from any person on his behalf, any remuneration whatever, other than the Fees hereby authorised,* for providing him with employment, he shall for every such offence incur a penalty not exceeding £5."

* One Shilling to be paid to the Superintendent of the Port, and which is deducted from the Seaman's wages at the termination of the voyage.—See sec. 125 of "The Merchant Shipping Act, 1854."

CAUTION.

TO OWNERS, MASTERS, AND MATES OF FOREIGN-GOING SHIPS.

THAMES POLICE COURT, LONDON.—HENRY LEWIS, part owner of the "Avon," of Yarmouth, Nova Scotia, was summoned under Sec. 136, of the "Merchant Shipping Act, 1854," for proceeding to sea as Master of a foreign-going ship of British registry, not being in possession of a valid Certificate either

Digitized by Google

of competency or service, and for which offence he was fined in the mitigated penalty of £20.

Masters and Mates of all foreign-going ships, before proceeding to sea, are required to possess a Certificate either of competency or service appropriate to their stations, and to produce the same to the Superintendent when signing an agreement.

This regulation is also extended by Sec. 109 of aforesaid Act to the Masters and Mates of all colonial vessels when employed in trading or going between any place in the United Kingdom and any other place not situate in the possession in which their ships are registered, and the Masters and Mates of such vessels are hereby cautioned to obtain the necessary Certificates before their departure from the United Kingdom.

To be exhibited at the Mercantile Marine Offices and at the Custom Houses of all Ports and Creeks in the British possessions abroad.

CAUTION.

CONVICTION FOR PLACING AN IMPROPER WEIGHT ON THE SAFETY VALVE OF A PASSENGER STEAM BOAT.

October 15th, 1857.

ROBERT WILKINSON, an engineer, was charged before the Justices of the Peace, Greenock, by order of the Board of Trade, under the "Merchant Shipping Act," sec. 302, with having broken or removed the lock to the Government valve of the "Flying Childers," of London, which had been licensed for the purpose of carrying Passengers, and placed thereon an undue weight, beyond the limits fixed by the Engineer Surveyor, by which he had incurred a penalty not exceeding £100.

The Defendant pleaded Guilty to the charge, and this being the first case which had been brought before the Court, he was fined in the mitigated penalty of £15 only.

NOTICE TO MARINERS.

ACCOUNTS OF SEAMEN'S WAGES.

MR. CHARLES DYETT, master of the "Caroni" of London, was summoned before MR. YARDLEY, Magistrate of the Thames Police Court, on the 20th March, 1855, to answer the complaint of FREDERICK FARMER, one of his Crew, who deposed "That he was not furnished with an account of his wages," agreeably to the 95th Section of the "Mercantile Marine Act," (re-enacted in the 171st Section of the "Merchant Shipping Act, 1854.")

MR. DYETT having admitted the charge, was fined in the mitigated Penalty of TWENTY SHILLINGS, AND COSTS, and ordered also to *pay a disputed Sum of Ten Shillings*, due to the Seaman for Wages.

As a Conviction in a Court of Justice may lead to the suspension or revocation of a Certificate of Competency or of Service, The Lords of the Committee of Privy Council for Trade hereby caution Masters of Vessels, of the risk they incur by non-compliance with the aforesaid provision, which is intended for the proper protection of the Seaman.

BY ORDER OF THE BOARD OF TRADE,
13*th April*, 1855. J. H. BROWN,
Registrar-General of Seamen.

CAUTION.

TO MASTERS, MATES, AND SEAMEN IN THE BRITISH MERCHANT SERVICE.

By the "Merchant Shipping Act," Section 140, it is enacted, That "every Person who makes, or procures to be made, or assists in making, any false Representation for the purpose of obtaining for himself or for any other Person a certificate either of Competency or Service, or who forges, assists in forging, or procures to be forged, or fraudulently alters, assists in fraudulently altering, or procures to be fraudulently altered, any such certificate or any official Copy of any such Certificate, or who fradulently makes use of any such Certificate or any Copy of any such Certificate which is forged, altered, cancelled, suspended, or to which he is not justly entitled, or who fraudulently lends his Certificate to, or allows the same to be used by any other Person, shall for each Offence be deemed guilty of a MISDEMEANOR, and may be punished by Imprisonment for any period not exceeding SIX MONTHS, with or without hard labour, or by a Penalty not exceeding ONE HUNDRED POUNDS."

The following Convictions having been obtained for infringement of the provisions of the above-cited Section, the same are published as a caution to Mariners—

April 1st, 1859. ANTHONY HALL was proceeded against at North Shields, for having in November, 1854, obtained a Certificate of Service as Master by means of false representations, and was sentenced to THREE MONTHS' Imprisonment, with hard labour.

April 7th, 1859. WILLIAM BULLOCK was charged before the Magistrates at South Shields with using a forged discharge for the purpose of obtaining a Certificate of Service, and sentenced to ONE MONTH'S Imprisonment with hard labour.

LONDON, *April*, 1859. J. H. BROWN.
Registrar-General of Seamen.

CAUTION.

CONVICTION FOR FRAUDULENTLY USING A FALSE TESTIMONIAL.

On the 18th inst., GEORGE POLAND, Master of the "Corsair," of Shoreham, was charged before the Magistrate of the Greenwich Police Court under Section 140 of the "Merchant Shipping Act," wherein it is enacted, that "Every Person who makes, or procures to be made, or assists in making, any false Representation for the Purpose of obtaining for himself or for any other Person a Certificate either of Competency or Service, or who forges, assists in forging, or procures to be forged, fraudulently alters, assists in fraudulently altering, or procures to be fraudulently altered, any such Certificate or any Official Copy of any such Certificate, or who fraudulently makes use of any such Certificate, or any Copy of any such Certificate which is forged, altered, cancelled, suspended, or to which he is not justly entitled, or who fraudulently lends his Certificate to, or allows the same to be used by any other Person, shall, for each offence, be deemed guilty of "Misdemeanour," whereby he is liable to a penalty not exceeding ONE HUNDRED POUNDS, or to be Imprisoned for any period not exceeding *Six Months with hard labour*. The defendant, having pleaded guilty to using a Forged Testimonial for the purpose of obtaining a Certificate of Service, was fined in the mitigated penalty of TEN POUNDS AND COSTS, or to be *Imprisoned for Six Weeks with hard labour*.

J. H. BROWN,
Registrar-General of Seamen and Shipping.

GENERAL REGISTER AND RECORD OFFICE OF SEAMEN,
Adelaide Place, London Bridge, 24th August, 1858.

CONVICTION

UNDER THE MERCHANT SHIPPING ACT.

WILLIAM ROBSON of Sunderland, was brought before the South Shields Bench of Magistrates on Tuesday, 16th August, 1859, under a Warrant issued at the instance of the Board of Trade, for having endeavoured to obtain by False Representation a Certificate of Service as Master Mariner, and was sentenced to THREE MONTHS' IMPRISONMENT WITH HARD LABOUR.

NOTICE.

The 136th Section of the "Merchant Shipping Act" provides that every Person who goes to Sea as Master or Mate of any Foreign-going or Home Trade Passenger Ship, without being at the time entitled to and possessed of such a Certificate as the Act requires, and every Owner or other Person who employs any Person as Master or Mate of a Foreign-going or Home Trade Passenger Ship without ascertaining that he is at the time entitled to and possessed of such certificate, for each offence incurs a Penalty not exceeding fifty pounds.

The 140th Section provides that any false representation for the purpose of obtaining a Certificate, or forging or fraudulently altering, or being a party to forging or altering, them, or any official copy, or fraudulently making use of a forged, altered, cancelled, or suspended Certificate or of one to which the Person is not justly entitled, or fraudulently lending a Certificate, is punishable by IMPRISONMENT.

BOARD OF TRADE, *September*, 1859.

NOTICE TO SHIP OWNERS AND MASTERS.

FORMALITIES ENJOINED BY THE TURKISH AUTHORITIES FOR VESSELS PASSING THROUGH THE DARDANELLES.

The Lords of the Committee of Privy Council for Trade have received, through the Secretary of State for Foreign Affairs, a copy of a despatch and its inclosures from Lord Stratford de Redcliffe, calling attention to the disregard shown by British Ship Masters to the regulations laid down by the Turkish authorities for all ships passing through the Dardanelles.

Shipowners and Masters are accordingly cautioned, that the facilities which were temporarily granted to transports passing through the Dardanelles during the late war have been withdrawn, and that vessels are now required as formerly to stop at the Dardanelles for the purpose of completing the necessary formalities, and of delivering the Firmans granted to them at Constantinople.

Hitherto, upon the non-observance of these regulations, the Turkish authorities have been in the habit of firing blank cartridge to attract the attention of vessels passing by the forts; but as this lenient mode of proceeding has not had the desired effect, the Pacha in command has signified to Her Majesty's Ambassador at Constantinople his determination no longer to tolerate such unwarrantable and manifestly wilful irregularities, and has ordered that (after allowing a reasonable time for the notification to masters of steam vessels and their agents at Constantinople of his intention) shotted guns shall be fired into any vessel attempting to evade the regulations in question.

RULES AND REGULATIONS.

TO BE STRICTLY OBSERVED BY

MASTERS, MATES, AND SEAMEN OF THE SEVERAL VESSELS BELONGING TO OR EMPLOYED BY THE WAR DEPARTMENT.

WAR OFFICE, PALL MALL,
24th August, 1859.

1st.—On arrival at any Military Store Station, the Master is immediately to report himself to the Senior Military Store Officer, and if any Stores are on Board, to deliver the Bills of Lading.

2nd.—The Master is to attend daily at the Military Store Office at the Station where the Vessel may be lying, to receive such orders as it may be necessary to give him.

3rd.—The Master is strongly enjoined frequently to examine the Hold, and to be particularly careful that all Iron Bolts, Nails, &c., are covered with Sheet Lead or pieces of Leather, and that any defects in the Vessel or Stores are immediately reported, in writing, to the Senior Military Store Officer at the Station.

4th.—Previously to receiving any Gunpowder, Ammunition, &c., the Master or Mate is to take especial care to examine the Hold, and see that it is clean swept, free from grit or dust, and in a fit state to receive the Stores, which he is to report to the Senior Military Store Officer.

Digitized by Google

5th.—On receiving Gunpowder, Ammunition, &c., the Master is to see that the Platform in the Vessel's Hold, the Gangways, and Combings of the Hatchways, are covered with Tanned Hides, that the Barrels or Boxes are carefully stowed, the Hatches properly secured and locked, and that the Key remains in his own possession.

6th.—No Fires, Lights, or Smoking are, under any circumstances, to be permitted on Board during the time of Loading or Unloading, or while lying alongside (or within a quarter of a mile of) any Magazine:—Fires will be provided in the Cook Houses at the several stations, when requisite, for cooking the provisions. When at sea, and it is necessary to have a fire on board, the Master is to see it carefully extinguished at sunset and one hour previously to going alongside any Ship or Magazine.

7th.—Having received Gunpowder or other Ammunition a red flag is to be hoisted at the mast-head, and kept flying until the cargo is discharged. The Master or Mate and all the Crew are to remain on Board until all the Stores are discharged, Except it may be necessary to procure Water or Provisions, of which notice is to be given to the Senior Military Store Officer.

8th.—On delivery of the above Stores the same caution is to be used as in Loading; and if any Barrels or Boxes should have been unavoidably broken or any Powder become loose, it is to be carefully swept up and delivered at the Magazine:—and the circumstance reported by the Master to the Senior Military Store Officer.

9th.—No Lucifer Matches are at any time to be used on board any of the War Department Vessels, and any Person found to be in possession of the same will be immediately dismissed.

10th.—The Master is to keep a Log Book, inserting the Daily Occurrences, and also the Receipts and Deliveries.—The tally of all stores passing into or out of the Vessel is to be taken by the Master or Mate, who will be held strictly accountable for the delivery of all the Stores according to the receipt tally, and any deficiency must be immediately reported by the Storekeeper to whom the Stores are consigned.

11th.—In the Steamers at sea the Officer in charge is to keep his Watch on the bridge, and to see that the lamps are properly trimmed, and that a good look-out is kept by the man stationed in the bows.

12th.—The Admiralty regulations respecting lights must be strictly attended to, both in the Steam and Sailing Vessels.

13th.—On the arrival of the Steam Vessel in any Port the Chief Engineer is to report to the Master or Mate that the Sea and Bilge Cocks are secure before leaving the Vessel; and the Engineer on duty, when under-way, shall not under any pretence leave the Engine Room unless relieved by the Engineer off duty; and in the event of the Fires being required to be banked up, the Vessel is on no account to be left without one Engineer on board.

14th.—The Stokers shall assist the crew in getting the anchor whenever required, but will not be called on to take part in the general work of the ship on deck, except in cases of emergency at sea. On arriving at any port they shall be employed under the Engineers in cleaning the Boilers, Engines, and other work in the Engine Room.

15th.—The Galley and Steam Funnels are to be kept clean swept, whitewashed, and painted by the Stokers.

16th.—The Galley Fire is to be extinguished at 8 p.m., and not lighted before 6 a.m. The Funnels are to be daily carefully examined and swept.

17th.—All Boats, unless required for the service, are to be hoisted up at 9 p.m., and on no account to be lowered unless ordered by the Master, or in his absence the Mate.

18th.—When the Vessel is unloaded, safely moored, and not immediately wanted, the Master, Mate, and Crew, will be permitted, in turn, occasionally to be with their families (when the weather will allow), but Steamers are never to be left without the Master or Mate, one Engineer, one Seaman, one Stoker, and one Boy; nor Sailing Vessels without either the Master or Mate, and one Seaman on Board, nor is any person to absent himself at any time without express permission from the Senior Military Store Officer at the Station.

19th.—Each Vessel will be furnished with two Red Flags, as many Pairs of Magazine Slippers as there are men in crew, and a like number of Pairs of Trowsers and Frocks, for working in the Hold, but not to be worn at any other period; these Articles will be supplied upon the Master making a requisition for them to the Senior Military Store Officer of the Station to which the Vessel belongs.

20th.—When absent from his own Station, or meeting with any Accident at Sea, whereby the safety of the Vessel is endangered, or delay likely to be occasioned, the Master is to report immediately to the Senior Military Store Officer at the Station to which he belongs, and apply for assistance to the nearest Military Storekeeper, Ship, or Dock-yard belonging to Her Majesty.

21st.—The Master will be held strictly responsible that the service upon which his vessel is employed is performed with the utmost dispatch; and in the event of his being obliged to seek shelter, that no unnecessary delay is allowed to take place before again proceeding on his voyage. The circumstance is to be immediately reported to the Senior Military Store Officer to whom the stores are consigned.

22nd.—The Master is authorised to draw half a Month's Pay, in the event of his voyage being prolonged, by adverse Winds or unforeseen circumstances, beyond the Month in which he was originally loaded; the circumstances to be immediately reported to the Senior Military Store Officer at the Station to which the Vessel belongs.

23rd.—Every man or boy employed in this service is to devote himself exclusively to it, and the Master will be held responsible for the conduct of the Mate and Crew, and in the event of any disobedience of his orders by them he is to report, in writing, to the Senior Military Store Officer at the Station to which he belongs.

24th.—Any Master, Mate, or Man wishing to leave the Service, must give three days' notice, or forfeit pay for a similar time.

25th.—When removing the Armament of any of Her Majesty's Ships, the Master is to use his utmost endeavours to prevent any article of Naval Stores being put on board his Vessel with the Stores of this Department. In the event of his observing any article of Naval Stores amongst the War Department Stores, he will immediately report the circumstance to the Officer commanding the Ship from which the Armament is being removed.

26th.—On all occasions before casting off, after receiving Stores from any of H. M. Ships alongside the Dock-yard, the Master will apprise the Dockyard Police in order that his Vessel may be searched. Should the Ship be in the stream, he will ask the Officer commanding to send the Master-at-Arms on board his Vessel to make the examination; he will then lock the Hatch, and retain the key in his own possession, until his Vessel comes alongside the Gun Wharf to unload.

27th.—The Master will make out an Inventory of all the standing and running rigging, masts, blocks, anchors, cables, (stating the length of the cables), sails, and all spare stores, &c.

28th.—He will transmit Demands from time to time for such Stores as may be requisite, returning the old Stores to the Military Storekeeper, to show that they have been fairly worn out.

Digitized by Google

29th.—The Master will periodically examine the Forecastle, and report to the Military Storekeeper any article of Public Stores found therein other than those belonging to the Vessel.

30th.—All Stores belonging to the Vessels are to be clearly marked W ⚓ D.

31st.—Periodical surveys will be held by an Officer of the Military Store Department, in order to ascertain that the Stores are correct; and the Master will be held strictly responsible for all the Stores placed in his charge as shown by the Inventory. The Military Storekeeper is to report having held the survey.

To Military Store Officers in charge of Stations, and to the Masters of the War Department Vessels.

J. CRAWFORD CAFFIN,
Director of Stores.

RESERVE FORCE OF ROYAL NAVAL VOLUNTEERS.

HER MAJESTY'S GOVERNMENT having, with the sanction of Parliament, determined on establishing a Reserve Volunteer Force of Seamen trained to the use of Arms:

This is to give Notice,

That any Seaman possessing the following qualifications may be inrolled as a Royal Naval Volunteer in the Reserve Force, and will thereupon be entitled to the advantages and be subject to the obligations mentioned below:—

QUALIFICATIONS FOR THE RESERVE.

1. A Volunteer must be a British subject:
2. He must be free from infirmity:
3. He must not be over thirty-five years of age:
4. He must within the ten years previous to his joining the Reserve have been five years at sea, one year of that time as an A.B.

ADVANTAGES OF THE RESERVE.

1. A Volunteer will at once receive an annual payment or retainer of 6*l.*, payable quarterly:
2. He will, if he fulfils his obligations and is in the Reserve the requisite time, receive a pension of not less than 12*l.* a year whenever he becomes incapacitated from earning a livelihood, or at sixty years of age if not previously incapacitated:
3. He may elect either to take the whole pension himself, or to take a smaller pension for himself during his life, and to allow his wife a pension after his death, for the remainder of her life:
4. He will not, on account of belonging to the Reserve, forfeit any interest in any Friendly or Benefit Society:
5. His travelling expenses to and from the place of drill will, when necessary, be provided:
6. He will, during drill, receive, in addition to the retaining fee, the same pay, victualling, and allowances as a seaman of the fleet:
7. He will, if called out on actual service, receive the same pay, allowances, and victuals, and have the same prospect of promotion and prize money, as a continuous service seaman of the fleet, and he will on joining receive the same clothing, bedding, and mess traps:
8. He will, if wounded or injured in actual service, receive the same pension as a seaman in the Navy of the same rating:
9. He will be eligible to the Coast Guard Service and Greenwich Hospital:
10. He may quit the Reserve, if not at the time called out for actual service, at the end of every five years; he may also quit it, when not called out, on paying back the retainers he has received; or, without payment, if he passes an examination as a Master or Mate, and obtains bonâ fide employment as Master or Mate.

OBLIGATIONS OF THE RESERVE.

1. A Volunteer must attend drill for twenty-eight days each year; he may do so, so far as the convenience of the public service will permit, at a time and place convenient to himself; but he cannot in any case take less than seven days' drill at any one time:
2. He must not, without special permission, proceed on a voyage that will occupy more than six months:
3. He must appear before some Superintendent once in every six months, unless he has leave to be abroad longer, and he must report every change of residence and employment.
4. In order to earn a pension he must continue in the Reserve as long as he is physically competent to serve, and he must also have been in the force fifteen years if engaged above thirty, or twenty years if engaged under thirty. In reckoning this time, actual service in the fleet will count double:
5. Volunteers may be called upon, for actual service in the Navy, by Royal Proclamation. It is intended to exercise this power only when an emergency requires a sudden increase in the Naval Force of the country:
6. A Volunteer may in the first instance be called out for three years. If there is then actual war, and he is then serving in one of Her Majesty's ships, he may be required to serve for two years longer: but for the additional two years he will receive 2*d.* a day additional pay:
7. Volunteers when on drill or actual service will be subject to naval discipline:
8. A Volunteer who fails to fulfil the obligations of the Reserve will forfeit his claim to Retainer and Pension, and if he fails to join when called out for actual service may be treated as a Straggler or Deserter from the Navy.

THE INROLMENT COMMENCED ON 1ST JANUARY, 1860.

FULL INFORMATION AND DETAILED CONDITIONS

May be obtained on application to the Superintendent at any Port in the United Kingdom, or to the Officers of Customs in the Channel Islands and Isle of Man.

RESERVE FORCE OF ROYAL NAVAL VOLUNTEERS.

LEAVE FOR LONG VOYAGES.

Special leave for voyages exceeding six months will be granted to ALL VOLUNTEERS on the following conditions:—

1. The leave is to be for one ship, and for one voyage only at a time, and to be renewed for each voyage. The ports or countries at which the ship is to touch must be all specified, or if any of these are not specified the voyage must be limited by the articles to twelve months.
2. The Volunteer must have completed his twenty-eight days' drill for the year before the leave will be given.
3. On an emergency the Reserve may be called out for service at home *or abroad*. If the Volunteer is then abroad, he must, if summoned, join any of H. M. ships abroad; under the same penalties, in case of refusal, as in case of refusal to join in the United Kingdom.
4. The arrears of Retainer due will be paid on the Volunteer's return in the ship for which leave is given.
5. The Admiralty reserve power to withhold this leave if at any time on an emergency the Volunteers are required for the defence of the country. They also reserve power to withhold the leave at the end of each Volunteer's first five years of service, when he may, if he pleases, quit the force.
6. Subject to these reservations, it is the intention of the Admiralty to grant leave upon the above conditions for the first five years of the service of each Volunteer who joins the Reserve under the present Regulations.

REGULATIONS FOR THE INROLMENT OF OFFICERS IN THE ROYAL NAVAL RESERVE,

IN PURSUANCE OF

The Act 24 & 25 Vict. cap. 129, and the Order in Council of the 20th November, 1861.

NOTICE TO MASTERS AND MATES IN THE MERCHANT SERVICE.

The following Regulations have been established in pursuance of the Act 24 & 25 Vict. c. 129, relating to the Inrolment of Officers in the Royal Naval Reserve.

Any Master and Mate of the Merchant Service who is desirous of becoming an Officer of the Royal Naval Reserve should apply by letter to the Registrar-General of Seamen, No. 6, Adelaide-place, London-bridge, E.C., for a form on which his application for a Commission in the Royal Naval Reserve is to be made, and should state distinctly in such letter his name and the address to which the form is to be sent. A form of application will then be sent to the address indicated, with full instructions as to the mode in which it is to be filled up.

As many Officers in the Merchant Service are now abroad and may not return for some time, and as the number of Officers of the Reserve is limited, whatever may be the number of applications the list will not be entirely filled up until 1st January, 1864. This will give time for all those now on long voyages to apply.

A pattern of the uniform may be seen at the Office of the Registrar-General of Seamen.

BOARD OF TRADE,
10 *December*, 1861.

ROYAL NAVAL RESERVE.

By the Commissioners for executing the Office of Lord High Admiral of the United Kingdom of Great Britain and Ireland, &c.

Whereas by the Act 24 & 25 Vict. c. 129, provision is made to enable Her Majesty to avail herself of the services of a certain number of Officers of the Merchant Service of the United Kingdom, and of the Colonies and Dependencies of Great Britain, as Officers of Reserve to the Royal Navy: And whereas Her Majesty has been pleased, by Her Order in Council of the 20th instant, to direct that the following Regulations be established for carrying into effect the provisions of the said Act: We hereby desire and direct that the Regulations in question be promulgated for the information and guidance of Officers of the Merchant Service who, in conformity with Her Majesty's gracious intentions, are desirous of inrolling themselves as Officers of the Royal Naval Reserve, under the conditions specified.

1. *Number, Class, and Rank.*

The Officers of the Royal Naval Reserve shall not exceed the total number of 400, and shall consist of two classes:—

1. Lieutenants of Naval Reserve, whose number shall not exceed 130; and who will rank with, but after, Lieutenants of the Royal Navy.
2. Sub-Lieutenants of Naval Reserve, whose number shall not exceed 270; and will rank with, but after, Sub-Lieutenants of the Royal Navy.

2. *Appointment.*

Officers of both classes will receive their appointments from us; but applications for appointments should be made through the Board of Trade, London.

3. *Qualification.*

Masters of merchant vessels who hold certificates of competency under the "Mercantile Marine Act of 1850," or the "Merchant Shipping Act, 1854," and who have commanded vessels of not less than 500 tons burthen, for not less than two years, shall be eligible for appointment as Lieutenants or Sub-Lieutenants of the Royal Naval Reserve.

Chief Mates of merchant vessels who hold Masters' or Chief Mates' certificates of competency under the "Mercantile Marine Act, 1850," or the "Merchant Shipping Act, 1854," and who have sailed as Masters, or as Chief Mates, in vessels of not less than 500 tons burthen, for not less than two years, shall be eligible for the appointment of Sub-Lieutenant of the Royal Naval Reserve. Masters with extra certificates will, as a general rule, have the preference.

Qualification for the First Class will include qualification for the Second Class.

No Master or Mate will be inrolled as Lieutenant or Sub-Lieutenant whose age exceeds 45. This limit will subsequently be altered to 35, at the discretion of the Lords Commissioners of the Admiralty.

Masters of merchant vessels who are actually afloat and in command, though they may be above the age of 45 years, may be inrolled as Honorary Lieutenants of the Royal Naval Reserve, on the recommendation of the Board of Trade.

The number of Honorary Lieutenants is not to exceed 100 in addition to the numbers above specified. They will not be required to undergo drill or be called out for service.

4. *Promotion.*

Officers of the Second Class will, if qualified, be eligible for promotion to the First Class, at our discretion.

Officers who, when in actual service, may, by the character or length of their service, obtain our special approbation, will be eligible to receive Commissions as Officers in the Royal Navy, of the same grade as that with which they may rank at the time. They will then be considered in all respects as Officers on the permanent strength of the Navy.

Officers who, whilst on actual service, shall have distinguished themselves in action with the enemy, or by the character and length of their services, will be eligible, at the conclusion of their service in the Navy, for promotion to the higher honorary ranks of Commander and Captain of the Naval Reserve, at our discretion.

5. *Uniform.*

Officers to wear the same uniform as Officers of corresponding rank in the Royal Navy, with the following exceptions:—

Lieutenants.—Instead of the stripe of half-inch lace round the sleeves of the coats there is to be a stripe formed of two waved lines of quarter-inch gold braid, intersecting each other, so as to form a band half an inch wide, the blue cloth to show between the curves.

Sub-Lieutenants to have one such waved line of the same braid.

The buttons of both classes to be of the Royal Navy pattern, with the letters "R.N.R." in old English characters, surmounted by a crown.

Instead of the anchor on the epaulettes and shoulder-straps respectively, there is to be a badge consisting of a silver anchor in the centre, surrounded with the words "Royal Naval Reserve" embroidered in gold.

Instead of the bullion loop on the cocked hats, the loop to be formed of two gold braids twisted the same as for coat sleeves.

The badge for the caps to consist of a device similar to that on the epaulettes embroidered on blue cloth and surmounted by a crown.

The plate for the sword belt to be the same as for Officers of the Royal Navy, substituting the letters "R.N.R." for the anchor in the centre.

6. Drill.

Officers will be required to undergo in each year a course of 28 days' drill and gunnery instruction on board the district or drill ships at the ports in their respective vicinity, viz. :— London, Shields, Sunderland, Hull, Southampton, Falmouth, Bristol, Liverpool, Leith, Greenock, Dublin, or Queenstown.

7. Messing.

Officers, whilst on drill, will live on shore, and receive the following subsistence allowance, viz. :—

Lieutenants . . . . . 10*s.* a day.
Sub-Lieutenants . . . . . 7*s.* ,,

When called out for service they will mess with their respective ranks.

8. Discipline.

Officers will be subject to Naval Discipline when attending drill, and when called out for actual service; and will be liable to lose their Commissions for offences against the rules, discipline, or character of Her Majesty's Service, in the same manner as Officers of the Royal Navy.

9. Service Afloat.

Officers of the Royal Naval Reserve will be called out for actual service by Royal Proclamation; and they will be liable to serve during the continuance of any national emergency, or until they may be regularly discharged by our direction.

10. Pay and Allowances, and Pensions to Widows.

Officers will, whilst called out for actual service, receive the pay of their corresponding ranks in the Royal Navy.

Officers who may receive hurts or wounds whilst on service, will receive the same pensions and allowances to which Officers in the Navy would be entitled under similar circumstances.

Widows of Officers who, whilst in actual service, may be killed in action, or die from accident resulting from the performance of their duty, will receive the same pensions as the widows of Naval Officers of corresponding rank would be entitled to under similar circumstances.

Given under our hands this 29th day of November, 1861.

SOMERSET,
FREDERICK WILLIAM GREY,
CHARLES EDEN,
CHARLES FREDERICK,
JAMES ROBERT DRUMMOND,
SAMUEL WHITBREAD.

By Command of their Lordships,
CLARENCE PAGET.

15. Sailing Ship and Ship under Steam.
16. Ships under Steam to slacken Speed.
17. Vessels overtaking other Vessels.
18. Construction of Articles 12, 14, 15, and 17.
19. Proviso to save special Cases.
20. No Ship under any Circumstances to neglect proper Precautions.

Preliminary.

Art. 1. In the following Rules every Steam Ship which is under Sail and not under Steam is to be considered a Sailing Ship; and every Steam Ship which is under Steam, whether under Sail or not, is to be considered a Ship under Steam.

Rules concerning Lights.

Art. 2. The Lights mentioned in the following Articles, and no others, shall be carried in all weathers between Sunset and Sunrise.

Art. 3. Seagoing Steam Ships when under weigh shall carry :—

(*a.*) *At the Foremast Head*, a bright White Light, so fixed as to show an uniform and unbroken Light over an Arc of the Horizon of 20 Points of the Compass, so fixed as to throw the Light 10 Points on each side of the Ship, viz., from right ahead to 2 Points abaft the Beam on either Side, and of such a Character as to be visible on a dark Night with a clear Atmosphere at a distance of at least Five Miles:

(*b.*) *On the Starboard Side*, a Green Light, so constructed as to throw an uniform and unbroken Light over an Arc of the Horizon of 10 Points of the Compass, so fixed as to throw the Light from right ahead to 2 Points abaft the Beam on the Starboard Side, and of such a Character as to be visible on a dark Night with a clear Atmosphere at a Distance of at least Two Miles:

(*c.*) *On the Port Side*, a Red Light, so constructed as to show an uniform unbroken Light over an Arc of the Horizon of 10 Points of the Compass, so fixed as to throw the Light from right ahead to 2 Points abaft the Beam on the Port Side, and of such a Character as to be visible on a dark

Night with a clear Atmosphere at a Distance of at least Two Miles:

(*d.*) The said Green and Red Side Lights shall be fitted with inboard Screens projecting at least Three Feet forward from the Light, so as to prevent these Lights from being seen across the Bow.

Art. 4. Steam Ships when towing other Ships shall carry Two bright White Mast-head Lights vertically, in addition to their Side Lights, so as to distinguish them from other Steam Ships. Each of these Mast-head Lights shall be of the same Construction and Character as the Mast-head Lights which other Steam Ships are required to carry.

Art. 5. Sailing Ships under weigh or being towed shall carry the same Lights as Steam Ships under weigh, with the Exception of the White Mast-head Lights, which they shall never carry.

Art. 6. Whenever, as in the Case of small Vessels during bad Weather, the Green and Red Lights cannot be fixed, these Lights shall be kept on Deck on their respective Sides of the Vessel ready for instant Exhibition, and shall, on the Approach of or to other Vessels, be exhibited on their respective Sides in sufficient Time to prevent Collision, in such Manner as to make them most visible, and so that the Green Light shall not be seen on the Port Side, nor the Red Light on the Starboard Side.

To make the Use of these portable Lights more certain and easy, they shall each be painted Outside with the Colour of the Light they respectively contain, and shall be provided with suitable Screens.

Art. 7. Ships, whether Steam Ships or Sailing Ships, when at Anchor in Roadsteads or Fairways, shall between Sunset and Sunrise exhibit, where it can best be seen, but at a Height not exceeding Twenty Feet above the Hull, a White Light in a globular Lantern of Eight Inches in Diameter, and so constructed as to show a clear uniform and unbroken Light visible all round the Horizon, and at a Distance of at least One Mile.

Art. 8. Sailing Pilot Vessels shall not carry the Lights required for other Sailing Vessels, but shall carry a White Light at the Mast-head visible all round the Horizon,—and shall also exhibit a Flare-up Light every Fifteen minutes.

Art. 9. Open Fishing Boats and other open Boats shall not be required to carry Side Lights required for other Vessels; but shall, if they do not carry such Lights, carry a Lantern having a Green Slide on the one Side and a Red Slide on the other Side; and on the approach of or to other Vessels such Lantern shall be exhibited in sufficient Time to prevent Collision, so that the Green Light shall not be seen on the Port Side nor the Red Light on the Starboard Side.

Fishing Vessels and open Boats when at Anchor or attached to their Nets and stationary shall exhibit a bright White Light.

Fishing Vessels and open Boats shall, however, not be prevented from using a Flare-up in addition if considered expedient.

Rules concerning Fog Signals.

Art. 10. Whenever there is Fog, whether by Day or Night, the Fog Signals described below shall be carried and used, and shall be sounded at least every Five Minutes, viz.—

(*a.*) Steam Ships under weigh shall use a Steam Whistle placed before the Funnel not less than Eight Feet from the Deck.

(*b.*) Sailing Ships under weigh shall use a Fog Horn.

(*c.*) Steam Ships and Sailing Ships when not under weigh shall use a Bell.

Steering and Sailing Rules.

Art. 11. If Two Sailing Ships are meeting End on, or nearly End on, so as to involve Risk of Collision, the Helms of both shall be put to Port, so that each may pass on the Port Side of the other.

Art. 12. When Two Sailing Ships are crossing so as to involve Risk of Collision, then, if they have the Wind on different Sides, the Ship with the Wind on the Port Side shall keep out of the Way of the Ship with the Wind on the Starboard Side, except in the Case in which the Ship with the Wind on the Port Side is close hauled and the other Ship free, in which Case the latter Ship shall keep out of the Way; but if they have the Wind on the same Side, or if One of them has the Wind aft, the Ship which is to windward shall keep out of the Way of the Ship which is to leeward.

Art. 13. If Two Ships under Steam are meeting End on, or nearly End on, so as to involve Risk of Collision, the Helms of both shall be put to Port, so that each may pass on the Port Side of the other.

Art. 14. If Two Ships under Steam are crossing so as to involve Risk of Collision, the Ship which has the other on her own Starboard Side shall keep out of the Way of the other.

Art. 15. If two Ships, one of which is a Sailing Ship and the other a Steam Ship, are proceeding in such Directions as to involve Risk of Collision, the Steam Ship shall keep out of the Way of the Sailing Ship.

Art. 16. Every Steam Ship, when approaching another Ship so as to involve Risk of Collision, shall slacken her Speed, or, if necessary, stop and reverse; and every Steam Ship shall, when in a Fog, go at a moderate Speed.

Art. 17. Every Vessel overtaking any other Vessel shall keep out of the Way of the said last-mentioned Vessel.

Art. 18. Where by the above Rules One of Two Ships is to keep out of the Way, the other shall keep her Course, subject to the Qualifications contained in the following Article.

Art. 19. In obeying and construing these Rules due regard must be had to all Dangers of Navigation; and due regard must also be had to any special Circumstances which may exist in any particular Case rendering a Departure from the above Rules necessary, in order to avoid immediate Danger.

Art. 20. Nothing in these Rules shall exonerate any Ship or the Owner or Master or Crew thereof from the Consequences of any Neglect to carry Lights or Signals, or of any Neglect to keep a proper Look-out, or of the Neglect of any Precaution which may be required by the ordinary Practice of Seamen, or by the special Circumstances of the Case.

SUMS PAID OUT OF MERCANTILE MARINE FUND TOWARDS SAVING LIFE FROM SHIPWRECK, DISTINGUISHING PAYMENTS TO CREWS OF LIFE BOATS, AND REWARDS AND GRATUITIES TO FISHERMEN AND OTHERS.

By the 459th section of the "Merchant Shipping Act, 1854," salvage for Life is paid in priority to all other claims for salvage, and the Board of Trade is empowered to grant remuneration out of the Mercantile Marine Fund to persons saving Life, where such salvage is insufficient; and by the 418th section of that Act the Board of Trade is also empowered to grant sums for establishing and maintaining Life Boats, with the necessary crews and equipments, on the coasts of the United Kingdom. Under the sections quoted, the following sums have been granted during the past year, and paid in part direct by Board of Trade, and partly through the medium of the Royal National Life Boat Institution, as distinguished in the following table.

LIST OF PERSONS TO WHOM THE BOARD OF TRADE MEDAL HAS BEEN AWARDED FOR DISTINGUISHED AND GALLANT SERVICES IN SAVING LIFE FROM SHIPWRECK.

DONALD THOMSON, DONALD LYELL, JOHN MURRAY, JOHN DUNNET, and JOHN NICHOLSON, a medal each, for saving two lives from the wreck of the "Ahti," of Wasa, in addition to a pecuniary reward of 15*l.* and a sum of 30*l.* awarded them for salvage of life out of proceeds of sale of the wreck.

COMMANDER STUDDERT, R.N., Inspecting Commander of Coast Guard, Newcastle, Ireland, for saving three lives from the "Martin" of Larne. Pecuniary rewards were also granted to the men under his command.

WILLIAM SMITH and THOMAS TALBOT, of the Coast Guard Service, for saving three of the crew of the "John and Mary" of Sunderland, Near Haddock Station, on the 27th September, in addition to a pecuniary reward of 2*l.* each for the same service.

COMMANDER NORCOCK, R.N., Inspecting Commander of Coast Guard, Fowey, for saving the life of George Dewey from the "Endeavour" of Ipswich, wrecked in St. Austell Bay. A pecuniary reward of 3*l.* each was granted to THOMAS HENWOOD and RICHARD JONES, two Coast Guard men who assisted him in the perilous attempt.

NUMBER OF LIVES LOST DURING THE YEAR 1856, COMPARED WITH THE FOUR PRECEDING YEARS.

By the Returns made during the Year 1856 it appears that of the total number of persons on board ships to which casualties have happened on the coasts of the United Kingdom, the Lives of 2,764 were imperilled, of which number 521, or 18·85 per cent., were Lost; viz.:—

Jan.	Feb.	Mar.	April.	May.	June.	July.	Aug.	Sept.	Oct.	Nov.	Dec.	Total
41	152	40	15	26	—	14	22	122	20	9	60	521

The Total Number of Lives reported as having been Lost during the Five Years, 1852—1856:—

1852.	1853.	1854.	1855.	1856.	Total.	Average.
920	689	1,549	469	521	4,148	829·6

From this it will be seen that the Wreck experience of the Year 1856 has been extremely favourable to Life, as contrasted with every year but the year 1855, over which there is a slight increase, the numbers being—

399 less than 1852,
168 ,, 1853,
1,028 ,, 1854,
52 more than 1855.

It is remarkable that the great decrease in the number of lives lost in 1855 and 1856 is concurrent with the changes effected by the Merchant Shipping Act, 1854.

NOTE 1.—Section 224 of the "Merchant Shipping Act, 1854," contains the following provisions, viz.:—"The following rules shall be observed with respect to medicines, medical stores, and anti-scorbutics; that is to say: (1.) The Board of Trade shall from time to time issue and cause to be published a scale of medicines and medical stores suitable to accidents and diseases arising on sea voyages. (2.) The owner of every ship navigating between the United Kingdom and any place out of the same, shall provide, and cause to be constantly kept on board such ship, a supply of such medicines and medical stores in accordance with the said scale. And if, in any such ship as aforesaid, such medicines, medical stores, lime or lemon juice, or other articles, sugar and vinegar, as are hereinbefore required, are not provided and kept on board, as hereinbefore required, the Master or Owner shall incur a penalty not exceeding twenty pounds; and if the Master of any such ship, as aforesaid, neglects to serve out the lime or lemon juice, or other articles, sugar or vinegar, in the case and manner hereinbefore directed, he shall for each such offence incur a penalty not exceeding five pounds; and if any Master is convicted in either of the last-mentioned penalties, and it appears that the offence is owing to the act or default of the Owner, such Master may recover the amount of such penalty, and the costs incurred by him, from the Owner.

NOTE 2.—In ships employed trading solely between places in Europe, or between places on the shores of the North Atlantic or Mediterranean, and in ships employed in the Greenland or Baffin's Bay trade, or in any of the Northern Fisheries, the proportion of the various articles above mentioned need not exceed the proportions mentioned in the second of the above columns, notwithstanding that the number of men and boys may exceed 20.

NOTE 3.—Passenger ships which are certified under the 44th section of the "Passengers' Act, 1855," to be duly supplied with medicines, need not be also provided with medicines or other articles according to the above scale.

HYDROGRAPHICAL NOTICES

ISSUED BY THE

ADMIRALTY, LONDON.

COCHIN CHINA—SOUTH-EAST COAST.

FIXED LIGHT ON CAPE ST. JAMES.

HYDROGRAPHIC OFFICE, ADMIRALTY,
LONDON, 12*th December*, 1862.

The Vice-Admiral Commander-in-Chief in Cochin China has given Notice, that on and after the 15th day of August, 1862, a light would be exhibited from a lighthouse recently erected at Cape St. James, on the south-east coast of Cochin China.

The light is a *fixed white* light, placed at an elevation of 482 feet above the mean level of the sea, and should be seen in clear weather from a distance of 28 miles.

The illuminating apparatus is dioptric or by lenses, of the first order.

The tower is 26 feet high, and stands on the southernmost of the heights of Cape St. James, at 776 yards from the southern point of the cape. The approximate position is given in lat. 10° 20′ N., long. 107° 4′ 51″ East of Greenwich.

By Command of their Lordships,
JOHN WASHINGTON,
Hydrographer.

NEW ZEALAND.

FIXED LIGHT AT NELSON HARBOUR.

HYDROGRAPHIC OFFICE, ADMIRALTY,
LONDON, 16*th December*, 1862.

The Colonial Government at New Zealand has given Notice, that on and after the 4th day of August, 1862, a light would be exhibited from a lighthouse recently erected at Nelson harbour, Blind bay, on the north coast of Middle island.

The light is a *fixed white* light, visible from seaward through an arc of 120° or when bearing from S. by W. ¾ W. round by east to E. by N. easterly. It is placed at an elevation of about 60 feet above the level of high water springs, and should be seen in clear weather from a distance of 12 miles.

The illuminating apparatus is dioptric or by lenses, of the fourth order.

The tower is of iron, octagonal, and painted white. It stands on the south-west part of the Boulder bank which forms the breakwater to the anchorage at about 10 miles south-westward of Pepin island, and half a mile N. by E. of the Powder magazine, in lat. 41° 15′ 5″ S., long. 173° 17′ 7″ East of Greenwich. It bears from the extreme of Cape Farewell sand spit S.S.E. ¼ E. easterly; and from the west entrance to Waimea river E. by N. easterly.

The outer anchorage is in 6 fathoms water with the light bearing E.S.E.

CAUTION.—Mariners are cautioned not to shut the light in, nor to approach within the distance of one mile of the lighthouse.

All bearings are magnetic. Variation 15° 20′ East in 1862.

By Command of their Lordships,
JOHN WASHINGTON,
Hydrographer.

WEST INDIES—CUBA.

FIXED WHITE LIGHT ON CAPE MAYSI.

HYDROGRAPHIC OFFICE, ADMIRALTY,
LONDON, 1*st January*, 1863.

BUOYS OFF THE COAST OF BELGIUM.

HYDROGRAPHIC OFFICE, ADMIRALTY,
LONDON, 3*rd February*, 1863.

The Belgian Government has given Notice, that two buoys have recently been placed on the banks off the coast of Belgium, as follows:—

EAST DYCK BANK.

A large red buoy with staff, surmounted by a black inverted cone with the word DYCK on it in white letters, has been placed in 8 fathoms water, at the north-east end of the east Dyck or Cliff-d' Islande bank, from which Dunkerque light bears S.W. ½ S. distant 20 miles; and Ostende light S.E. 16 miles.

WEST HINDER BANK.

A large black buoy with staff, surmounted by a red ball with the letters W.H. in white on it, has been placed in 12 fathoms water, at the south-west end of the West Hinder, from which Ostende light bears also S.E. distant 20 miles; and Dunkerque light S.S.W. ½ W. 21 miles.

These two buoys are in line with Ostende light, and distant from each other 4 miles. They mark the deep water channel to and from the Scheldt, and may be seen in clear weather at a distance of 3 miles. A pilot-boat cruizes off Ostende.

All bearings are magnetic. Variation 19° 25′ West in 1863.

.TERATION OF LIGHTS AT SHORTLAND BLUFF, PORT PHILLIP.

HYDROGRAPHIC OFFICE, ADMIRALTY,
LONDON, 25*th March*, 1863.

he Colonial Government of New South Wales has given ice, that on and after the 19th day of February, 1863, ts would be exhibited from two lighthouses recently ·ted at Shortland Bluff, at the entrance to Port Phillip, ·h coast of Australia.

he higher and inner light is a *fixed white* light, visible n seaward to vessels in the offing on any bearing between ıt E. by N. and North; but when close in with the Lons- · land, it will only be seen when bearing between N.E. by ınd North. Within Port Phillip heads the light will be ble from N.E. by E., round by north and west, to S.W. by

The light is elevated 130 feet above the level of high er, and should be seen in clear weather from a distance of niles.

he illuminating apparatus is dioptric or by lenses, of the ınd order.

he tower is gray, 68 feet high, and stands N.E. by N., ant 352 yards from the low lighthouse.

he low light is a *fixed red* and *white* light, showing white n bearing from about N.E. by E. to N.E., red from N.E. N.N.E., and white from N.N.E. round by north to W. by

It is placed at an elevation of 90 feet above the level of h water. The white light should be seen in clear weather n a distance of 11 miles, and the red light at 10 miles.

he illuminating apparatus is dioptric or by lenses, and the er is white.

essels entering between the heads at Port Phillip should p the red light in sight, and steer in with it bearing N.E. N. and in line with the high white light. The change of our from red to white indicates an approach to the Lons- dale or Nepean reefs. The white light between the bearings of N.E. by E. and N.E. shows over the dangers extending from Lonsdale point. Between the bearings of N.N.E. to W. by N., the white light shows over the Corsair rock to a line passing from the lighthouse through the South channel, southward of Popes eye and the black buoys, and to the northward of the white buoys, so that vessels during night with light winds or adverse tides will be aided by a bearing of the light.

The old towers will be removed as speedily as possible.

SWAN SPIT LIGHT.

Also, that on and after the 10th day of February, 1863, the Swan spit light would be altered from red to *red* and *white*, so as to show white when bearing from about E.N.E. to N.E. ½ E., red from N.E. ½ E. to N.E. ¾ N., white from N.E. ¾ N. to N. by W. ½ W., and red from N. by W. ½ W., round by the west to S. ¼ W.

The red light in sight between the bearings of N.E. ½ E., to N.E. ¾ N. indicates the entrance to the West channel between No. 1 black buoy and the white buoy with perch on the Royal George shoal.

CORSAIR ROCK.

To clear the Corsair rock, keep the east end of the Telegraph station open westward of the red obelisk, which is 40 feet high and standing near the site of the old lighthouse, until the white beacon on Nepean point is open northward of the red beacon. The beacon on Nepean point open south of the red beacon leads to the southward of the rock.

LONDON, *13th June*, 1863.

Notice has been officially given in the Venice Gazette, of 2nd June, that on and after the 15th day of June, 1863, a light will be exhibited from a lighthouse recently erected at the entrance to Port Chioggia, in the Adriatic.

The light will be a *fixed blue* (sky blue) light, placed at an elevation of 52 feet above the mean level of the sea, and should be seen in clear weather from a distance of 12 miles.

The illuminating apparatus is dioptric or by lenses, of the sixth order.

The lighthouse stands on the large tower of Fort St. Felice, at the south point of entrance to the port, and is said to be in lat. 45° 13′ 18″ N., long. 12° 16′ 25″ East of Greenwich, or about 2½′ west of that assigned to it in the Admiralty plan.

By Command of their Lordships,
JOHN WASHINGTON,
Hydrographer.

ALTERATION OF LIGHT AT CAYENNE.

HYDROGRAPHIC OFFICE, ADMIRALTY,
LONDON, *13th June*, 1863.

Information has been received at the Admiralty, that the following alteration has been made in the light at Cayenne on the coast of Guayana, and that additional lights have been established.

A *fixed white* light is exhibited from a wooden structure, 39 feet high, erected on the glacis north of Fort Cépérou. The light is placed at an elevation of 130 feet above the mean level of the sea, and should be seen in clear weather from a distance of 10 miles.

A *fixed green* light is exhibited from the north-west angle of the Infantry barrack, at an elevation of 60 feet above the sea, and visible 8 miles. It stands N.W. of the fort, and N.W. by N. from Cépérou lighthouse. The two lights in line bearing S.E. by E. lead over the Aimable rock. A vessel entering the river of Cayenne should therefore keep the white light a little open westward of the green light.

A *fixed red* light is shown from the jetty head to assist in entering the river at night.

All bearings are magnetic. Variation 0° 10′ West in 1863.

By Command of their Lordships,
JOHN WASHINGTON,
Hydrographer.

CHINA—EAST COAST.

LIGHT VESSELS IN THE YANG-TSE KIANG.

HYDROGRAPHIC OFFICE, ADMIRALTY,
LONDON, 15*th June*, 1863.

The Harbour Master for the Port of Shanghai has given Notice, that on the 12th March, 1863, a light vessel was placed on the Langshan crossing, in the Yang-tse kiang, about 43 miles above the entrance of the Wusung river.

The vessel exhibits a *fixed white* light, is painted red, has two masts, each carrying a ball, and may be passed on either side. She is moored in 5 fathoms at low water springs, with Langshan pagoda bearing N. by E., Fu-shan fort W. ¼ S., upper end of Muirhead hills S.W. ½ W., and Plover point S.E. by E. ½ E. When a ship is observed running into danger, a gun is fired to attract attention, and the signal (by Marryatt's code) of the course that should be steered is then exhibited.

Also, that on the same date, a new light vessel was moored at the entrance of the Yang-tse, in the same position as the former vessel. She exhibits a *fixed white* light, visible in clear weather at about 12 miles. In thick weather a *flash* light will also be shown every *hour*.

PILOTS.—Pilot schooners cruize off Gutzlaff island, and also between that island and the Amherst rocks, and pilots for the Yang-tse can now be obtained day or night, except when they are all on board of ships, when the pilot schooners anchor near the light vessel.

WUSUNG RIVER.

INNER BAR BEACONS.—To cross the Inner Bar, three *beacons* have been erected on the east bank of the river; the High or eastern beacon, 60 feet high, is painted *red* and surmounted by a *red cross*; the North and South beacons are each 40 feet high, painted *black* and *white*, and each surmounted by a *black ball*. The bar boats are discontinued.

To cross in the deepest water (10 feet at low water spring tides), bring High beacon midway between North and South beacons, E. ½ S. With a strong flood the course should be altered when High and North beacons are in one, E. by S. ½ S., or even before; on no account should North and South beacons be brought in one, as they lead over an 8-feet patch, which is marked by a spar buoy with a red flag. When over the bar, approach the shore to half or three-quarters of a cable, then alter course as requisite, keeping the same distance off the east bank of the river the whole way up to Black point.

At spring tides off the Middle Ground, the streams, both ebb and flood, run 4 knots, and at neaps 2 knots. Vessels going up with the last of the flood are obliged to anchor below the shipping and remain till the ebb stream makes down, which does not take place till 1¾ hours after high water by the shore; the flood stream makes about an hour after low water.

All bearings are magnetic. Variation 1° 50′ West in 1863.

FIXED LIGHT ON PIEDRAS CAY.

HYDROGRAPHIC OFFICE, ADMIRALTY,
LONDON, 26*th June*, 1863.

The Minister of Marine at Madrid has given Notice, that a light is exhibited from a lighthouse recently erected on Piedras cay, on the south coast of Cuba.

The light is a *fixed white* light, placed at an elevation of 30 feet above the mean level of the sea, and should be visible in clear weather from a distance of 7 miles.

The illuminating apparatus is dioptric or by lenses, of the fourth order.

The tower is 26 feet high, coloured brown, and over the keeper's dwelling on the north part of the cay. It is said to be in lat. 21° 57′ 50″ N., long. 81° 13′ 20″ West of Greenwich, or about 10′ west of that of the Admiralty charts.

By Command of their Lordships,
JOHN WASHINGTON,
Hydrographer.

HARBOUR LIGHTS AT CIVITA VECCHIA.

HYDROGRAPHIC OFFICE, ADMIRALTY,
LONDON, 1*st July*, 1863.

The Ministry of Commerce and Public Works at Rome has given Notice, that on and after the 17th day of June, 1863, two harbour lights would be exhibited from lighthouses recently erected to indicate the approach to the port of Civita Vecchia.

The lights are *fixed green* lights, one placed near the fortress at the end of the Bicchiere mole, at the eastern entrance to the port, and should be seen when bearing from N. ½ E. round by east to S.W. The other near the fortress at the end of the Lazzaretto mole, at the western entrance to the port, should be seen when bearing from South round by east and north to N.W. ½ W. The lights are elevated 23 feet above the mean level of the sea, and should be seen in clear weather from a distance of 3 miles.

Vessels entering the port by the eastern channel should have the Lazzaretto light ahead, the Bicchiere light to the eastward, and Antemurale *revolving* light to the westward. In entering by the western channel, vessels will have the Bicchiere light ahead, the Lazzaretto light to the eastward, and the *revolving* light to the westward.

All bearings are magnetic. Variation 14° 0′ West in 1863.

By Command of their Lordships,
JOHN WASHINGTON,
Hydrographer.

BALTIC—GULF OF RIGA.

LIGHTS AT THE ENTRANCE TO THE DWINA.

HYDROGRAPHIC OFFICE, ADMIRALTY,
LONDON, 3*rd July*, 1863.

The Imperial Ministry of Marine at St. Petersburg has given Notice, that on and after the 13th day of September, 1863, two lights will be exhibited from a lighthouse recently erected at Fortkamet dike, at the west point of entrance to the Dwina.

The upper light will be a *fixed* and *flashing white* light, showing a *flash* every *half minute*. It will be placed at an elevation of 103 feet above the mean level of the sea, and in clear weather should be seen from a distance of 16 miles.

The lower light will be a *fixed red* light, placed at an elevation of 21 feet above the level of the sea, and should be seen from a distance of 9 miles.

The illuminating apparatus of the upper light is dioptric or by lenses, of the second order.

The tower is iron. The old lights will be discontinued and the wooden lighthouse taken down.

Also, that on and after the 13th day of September, 1863, a light will be exhibited from a lighthouse recently erected on the extremity of the New Magnusholm dike at the east point of entrance to the Dwina.

The light will be a *fixed green* light, elevated 26 feet above the level of the sea, and should be seen from a distance of 10 miles.

The illuminating apparatus is dioptric or by lenses, of the sixth order.

GULF OF FINLAND.

ALTERATION OF LIGHT ON HANGÖ ISLAND.

Also, that on and after the 13th day of July, 1863, the light on Hangö island, on the north side of the gulf of Finland, will be altered from a fixed and flashing white light, showing a flash every minute, to a *fixed* and *flashing white* light, showing a *flash* every *two minutes*.

LOWER LIGHTHOUSE ON SOUROP POINT.

With a view of rendering the lower wooden lighthouse on Sourop point in lat. 59° 28′ 24″ N. long. 24° 26′ 13″ East of Greenwich more easily distinguished from the surrounding wood during the day, the eastern side of the tower has been coloured white. This will assist in rendering the above lighthouse more conspicuous when in line with the upper one, which is also coloured white.

By Command of their Lordships,
JOHN WASHINGTON,
Hydrographer.

NORTH ATLANTIC—NEWFOUNDLAND.

FIXED RED LIGHTS IN ST. JOHNS HARBOUR.

HYDROGRAPHIC OFFICE, ADMIRALTY,
LONDON, *7th July*, 1863.

Information has been received at this Office, that on or about the 10th day of July, 1863, two harbour lights will be established at St. Johns, Newfoundland.

The lights will be *fixed red* lights, one placed on the roof of the custom house at 50 feet above the mean level of the sea, the other near a chapel in front of the cathedral at 225 feet above the sea. The lights are 2 cables distant from each other, and when in line bearing N.W. ¾ W. lead through the narrows into St. Johns Harbour.

It is in contemplation to remove the light now at Fort Amherst, at the south point of entrance of the harbour, to the North head or north point of entrance.

All bearings are magnetic. Variation 31° 20′ West in 1863.

By Command of their Lordships,
JOHN WASHINGTON,
Hydrographer.

FIXED AND FLASHING LIGHT ON DONCELLA POINT.

HYDROGRAPHIC OFFICE, ADMIRALTY,
LONDON, *8th July*, 1863.

The Minister of Marine at Madrid has given Notice, that on and after the 31st day of August, 1863, a light will be exhibited from a lighthouse recently erected on Doncella point, in the province of Malaga, on the south coast of Spain.

The light will be a *fixed white* light, varied by a *flash* every *fourth minute*. It stands 59 feet above the mean level of the sea, and should be seen in clear weather from a distance of 12 miles.

The illuminating apparatus is dioptric or by lenses, of the fourth order.

The tower is round, 28 feet high, coloured gray, with the top of the lantern painted red and yellow. It is 36 yards from the sea in front of the keeper's house, at about half a mile S.W. of Estepona, and said to be in lat. 36° 24′ 20″ N., long. 5° 10′ 36″ West of Greenwich, or about 1½ miles west of that of the Admiralty charts.

FIXED AND FLASHING LIGHT ON CALABURRA POINT.

Also, that on and after the 31st day of August, 1863, a light will be exhibited from a lighthouse recently erected on Calaburra point, in the province of Malaga.

The light will be a *fixed white* light, varied by a *flash* every *three minutes*. It is placed at an elevation of 115 feet above the mean level of the sea, and in clear weather should be seen from a distance of 16 miles.

The illuminating apparatus is dioptric or by lenses, of the third order.

The tower is slightly pyramidal and octagonal, 44 feet high, coloured gray, with the top of the lantern painted red and yellow. It stands on the point south of the tower of Calaburra, 70 yards from the sea, in lat. 36° 30′ 40″ N., long. 4° 38′ West of Greenwich.

By Command of their Lordships,
JOHN WASHINGTON,

FIXED LIGHT AT AVILÉS.

HYDROGRAPHIC OFFICE, ADMIRALTY,
LONDON, *8th July*, 1863.

The Minister of Marine at Madrid has given Notice, that on and after the 31st day of August, 1863, a light will be exhibited from a lighthouse recently erected near Forcada point, at the north side of the entrance to the inlet of Avilés, on the north coast of Spain.

The light is a *fixed white* light, placed at an elevation of 130 feet above the mean level of the sea, and should be seen in clear weather from a distance of 10 miles.

The illuminating apparatus is dioptric or by lenses, of the sixth order.

The tower is octagonal, 46 feet high, coloured light yellow, and surmounted by a white lantern. It stands on Castillo point, on the north side of the keeper's dwelling, at 1½ cables S.E. of Forcada point, and about 30 yards from the sea, in lat. 43° 38′ 5″ N., long. 5° 56′ West of Greenwich.

FIXED RED LIGHT ON CABALLO POINT.

Also, that on and after the 31st day of August, 1863, a light will be exhibited from a lighthouse recently erected on Caballo point, the east part of Santoña mount, in the province of Santander.

The light will be a *fixed red* light, placed at an elevation of 85 feet above the mean level of the sea, and should be seen in clear weather from a distance of 10 miles.

The illuminating apparatus is dioptric or by lenses, of the sixth order.

The tower is slightly conical, 18 feet high, surmounted by a light green lantern, and close to the keeper's dwelling, which is painted yellow. It is in lat. 43° 28′ 12″ N., long. 3° 27′ 11″ West of Greenwich, and about 12 yards from the sea. The tower seen from the eastward appears to be attached to the great vertical cut which the land presents, and is not visible, nor the light, unless when bearing from S. by W. round by west to N. by E. ¾ E.

All bearings are magnetic. Variation 20° 50′ West in 1863.

By Command of their Lordships,
JOHN WASHINGTON,
Hydrographer.

KURRACHEE HARBOUR.

HYDROGRAPHIC OFFICE, ADMIRALTY,
LONDON, *18th August*, 1863.

Information has been received at the Admiralty, and is hereby made known for the benefit of Seamen, that although the works in progress for the improvement of Kurrachee Harbour are producing good effects likely to lead ultimately to an easier access to that harbour from sea, and have deepened the bar by 4 to 6 feet, yet that until those works are finally completed, which may not be for another year or even more, it is not unlikely that a less depth by one foot will be found in either of the channels at the entrance of the harbour.

Mariners will take notice accordingly.

CEYLON—SOUTH COAST.

LIGHT VESSEL AT THE LITTLE BASSAS REEF.

Information has also been received at the Admiralty that on and after the 1st day of June, 1863, a light would be exhibited, between the hours of sunset and sunrise, from a light vessel moored inside the Little Bassas reef, the centre

FIXED LIGHT AT KRONSTAT.

HYDROGRAPHIC OFFICE, ADMIRALTY,
LONDON, 19*th August*, 1863.

The Imperial Ministry of Marine at St. Petersburg has given Notice, that on and after the 13th day of July, 1863, a light would be exhibited from the lighthouse recently built on the south bastion of the Military port of Kronstat, Gulf of Finland; and that the old light hitherto shown from the south bastion would be discontinued.

The light is a *fixed white*, elevated 38 feet above the level of high water, and visible over the horizon of the Great and Little Roads, or between the bearings from N.N.W. ¾ W., round by west and south, to N.E. by E. ½ E. from the lighthouse.

The illuminating apparatus is dioptric or by lenses, of the sixth order. The position of the lighthouse is given as lat. 59° 58′ 14″ N., long. 29° 48′ 30″ East of Greenwich. Near the lighthouse is a bell, which in foggy weather is rung at short intervals four times in the hour.

NORTH SEA—COAST OF HOLLAND.

The Minister of Marine at the Hague has given Notice, that with a view of avoiding the shoals called the Eijerlandsche Gronden, a new *revolving* light will be shown in the winter of 1864—65 on the downs north of the island of Texel.

Also, that the following lights will be changed:—The revolving light in Ter Schelling lighthouse to be a *fixed red* light. That in the lighthouse on Vlieland island will remain as a light of the entrance, *red* towards the west horizon, from the first buoy of the entrance of the Storte-melk; it will be obscured from this point and will reappear of a *white* colour, facing and to the east of the channel called Noord-Ostgat.

All bearings are magnetic. Variation at Kronstat 4° 30′ West in 1863.

By Command of their Lordships,
JOHN WASHINGTON,
Hydrographer.

AMERICA—ENTRANCE TO CHESAPEAKE BAY.

LIGHTHOUSE ON SMITH ISLAND.

HYDROGRAPHIC OFFICE, ADMIRALTY.
LONDON, 24*th August*, 1863.

The United States Lighthouse Board has given Notice, that the lighthouse on Smith island, near Cape Charles, the north point of the entrance of Chesapeake bay, has been so much injured by lawless and malicious persons as to prevent the exhibition of the light. It is also feared that other lights in that vicinity may not for the present be relied on.

Due notice will be given of the restoration of these lights.

ENTRANCE TO PORTSMOUTH HARBOUR.

FOG SIGNAL AT WHALES BACK LIGHTHOUSE.

Also, that a fog bell, acted on by machinery, has been established at Whales Back lighthouse station, at the entrance of Portsmouth harbour, New Hampshire; and would be kept in operation from and after the 1st day of August, 1863. The bell tower is a frame structure, 25 feet high, white-washed, standing upon the lighthouse pier, and attached to the southern side of the light tower.

The signal is a steel bell, which is struck *four* times in a minute, at regular intervals, during fogs, snow storms, and thick weather, and should be heard a distance of one-quarter to 4 miles, according to circumstances of surf, weather, wind, &c.

The bell is at an elevation of 55 feet above mean low water.

TRINITY HOUSE NOTICES.

GUNPOWDER.—CAUTION.

NOTICE TO MASTERS OF VESSELS, PILOTS, AND ALL OTHER PERSONS NAVIGATING THE RIVER THAMES.

TRINITY HOUSE, LONDON,
5th September, 1855.

Whereas it has been represented to this Corporation, that the cautionary Notice, which was issued from this House, dated the 6th June, 1828, is disregarded, and that very serious apprehensions of danger are entertained by the Officers of Her Majesty's Ordnance, from the incautious practice of Steam Vessels making up their Fires when in proximity to the Ordnance Magazines at Purfleet, and also from their passing close to Windward of Vessels filled with Powder off that place, when such vessels are in the act of unloading; and it being essentially necessary that the utmost caution should be used for avoidance of danger, not only on the part of persons having the direction of Steam Vessels, but also by those in charge of all vessels navigating the River Thames;

Masters of vessels, Pilots, and other persons, are hereby directed and strictly enjoined to observe the following regulations, viz.:—

As respects both Steam and Sailing Vessels, and also Barges and other Craft, *not to approach* any vessel, at the Mast Head of which the *distinguishing Mark* of a *Red Flag*, denoting Gunpowder on board, shall be displayed:—

And, as respects Steam Vessels in particular, that in addition to the foregoing, the Fires be not, on any account, made up when passing, or in proximity to, the Ordnance Magazines at Purfleet, or when passing to windward of Vessels on board of which the *Red Flag* aforesaid is displayed.

As a further measure of precaution, Pilots and other persons having charge of vessels freighted with Powder, and which draw more water than admits of their entrance into the Ordnance Creek at Purfleet, are hereby *directed* to anchor such vessels in *Aveley Hole*, where they will lie out of the regular or necessary track of vessels traversing the River.

All persons herein concerned are hereby cautioned, that all such penalties as are, or may be, by law imposed, will be strictly enforced against all such persons as shall fail in observing the foregoing regulations.

By Order,
J. HERBERT, *Secretary*.

PILOTAGE.

TO MASTERS OF VESSELS AND OTHERS.

TRINITY HOUSE, LONDON,
15th August, 1861.

Notice is hereby Given,

That the Bye-Law recently made by this Corporation for exempting from compulsory pilotage ships navigating in ballast from any port or place in the United Kingdom to any other port or place in the United Kingdom within the pilotage jurisdiction of this Board, does not relieve Masters of Vessels, employing unqualified pilots to take charge of their vessels, from the penalties imposed by the 353 and 376 sections of the Merchant Shipping Act, 1854; nor does such Bye-Law relieve unqualified pilots from the penalties imposed by the 361st section of the said Act.

SPURN POINT, ENTRANCE OF THE HUMBER.

TRINITY HOUSE, LONDON,
21st July, 1863.

The alteration which has for many years been progressively taking place at the Spurn Point, occasioned by the encroachment of the sea, having now so far advanced as to cause serious apprehension of danger to the stability of the High Light Tower and buildings, notwithstanding the works which have been continuously carried on by this Corporation for the protection thereof,

Mariners are hereby warned, that it may at no distant period be found necessary to discontinue the exhibition of the light therefrom, without an opportunity being afforded for the issue of the usual timely notice.

BUOYAGE OF THE SANDS OFF THE EAST COAST.

TRINITY HOUSE, LONDON,
20th *October*, 1863.

Notice is hereby Given,

That the following alterations in the Buoyage of the Sands off the East Coast are about to be carried into effect, viz. :—

NORTH BANK BUOY.

The North Bank Buoy will be moved about 1 cable's length to the eastward, into about 5 fathoms.

COCKLE BUOYS.

The Cockle Spit Buoy will be moved three-quarters of a cable further to the N.W., and the N.E. Cockle Buoy will be moved midway between the Fairway Buoy and the Cockle Spit Buoy, and the West Cockle Spit Buoy will be removed, the channel having closed up.

CROSS SAND BUOYS.

A Monster Buoy, with *Black and White Vertical Stripes*, will be substituted for the present Middle Cross Sand Spit Buoy, and will be placed half a cable further to the eastward in 14 or 15 fathoms. The Middle Cross Sand Buoy will be moved about 1 mile to the S.S.W., and the South Cross Sand Buoy half a mile to the Eastward of their present respective positions. The whole of the Buoys on the Eastern side of the Cross Sand will, in future, be 12 feet Spiral Buoys, with the exception of the Monster Buoy.

SCROBY BUOYS.

The Staff and Ball will be removed from the S.W. Scroby Buoy and placed on the Scroby Elbow Buoy.

CORTON BUOY AND LIGHT VESSEL.

The N.E. Corton Buoy will be moved 1 cable further to the eastward, and a Half Globe will, in future, be hoisted under the present globe of the Corton Light Vessel.

HOLM BUOYS.

A new Buoy, with *Red and White Vertical Stripes*, to be called the N.E. Holm Buoy, will be placed between the N. Holm and the Holm Elbow Buoys, and the present N.E. Holm will, in future, be called the East Holm Buoy.

BARNARD BUOYS.

The S.W. Barnard Buoy will be moved about half a mile to the N.E. with Pakefield Lighthouse and the N. Barnard Buoy in line.

SIZEWELL BUOY.

A Monster Buoy will be placed in lieu of the present Can Buoy on the Sizewell Bank.

The marks, bearings, &c., of the Buoys, when moved, will be published in due course.

By Order,
